# **USASF Level / Rule Guide**

## **Level X**

Building and Tumbling Level are the same Level (X)

## **Level X . X**

Building Level X . Tumbling Level X

## **Level X . Y**

Building Level X . Tumbling Level Y

## **Examples of how levels may be written:**

**Level 3** - Building and Tumbling Level 3

**Level 1.1** - Building and Tumbling Level 1

**Level 4.2** - Building Level 4 and Tumbling Level 2

\*\*Certain Divisions (All Star Prep, All Star Novice, Tiny Novice, etc.) have additional rules and must be followed as well. Please consult the rules as well as the Age Grid to ensure all rules are being followed.

# 2018-19 GLOSSARY

- ½ Wrap Around
- Aerial
- Airborne/Aerial
- Airborne Tumbling Skill
- All 4s
- Assisted-Flipping Stunt
- Backbend
- Back Walkover
- Backward Roll

- Whip
- X-Out

# Glossary

**1/2 Wrap around:**

A stunt skill that involves a single base holding a top person usually in a cradle position (as seen in "Swing Dancing"). The base then releases the legs of the top person and swings the legs (which are together) around the back of the base. The base then wraps their free arm around the legs of the top person with the top person's body wrapped around the back of the base.

**Aerial (noun):**

Cartwheel or walkover executed without placing hands on the ground.

**Airborne/Aerial (adjective):**

To be free of contact with a person or the performing surface.

**Airborne Tumbling Skill:**

An aerial maneuver involving hip-over-head rotation in which a person uses their body and the performing surface to propel himself/herself away from the performing surface.

**All 4s:**

An "All 4s Position" is when an athlete is on their hands and knees on the performing surface but not in a tucked (nugget) position. When this person is supporting a top person, the "All 4s" position is a waist level stunt.

**Assisted-Flipping Stunt:**

A stunt in which a top person performs a hip-over-head rotation while in direct physical contact with a base or top person when passing through the inverted position. (See "Suspended Flip", "Braced Flip")

**Backbend (Stunting):**

The athlete's body forms an arch, typically supported by the hands and feet with the abdomen facing upward.

**Back Walkover:**

A non-aerial tumbling skill where the athlete moves backward into an arched position, with the hands making contact with the ground first, then rotates the hips over the head and lands on one foot/leg at a time.

**Backward Roll:**

A non-aerial tumbling skill where the athlete rotates backward into/or through an inverted position by lifting the hips over the head and shoulders while curving the spine (a tucked position) to create a motion similar to a ball "rolling" across the floor.

**Ball-X:**

A body position (usually during a toss) where the top person goes from a tucked position to a straddle/x-position with the arms and legs or just the legs.

**Barrel Roll:**

See "Log Roll".

**Base:**

A person who is in direct weight-bearing contact with the performance surface who provides support for another person. The person(s) that holds, lifts or tosses a top person into a stunt. (See also: New Base and/or Original Base). If there is only one person under a top person's foot, regardless of hand placement, that person is considered a base.

**Basket Toss:**

A toss involving 2 or 3 bases and a spotter -- 2 of the bases use their hands to interlock wrists.

**Block:**

A tumbling term referring to the increase in height created by using one's hand(s) and upper body power to push off the performing surface during a tumbling skill.

**Block Cartwheel:**

A momentarily airborne cartwheel created by the tumbler blocking through the shoulders against the performing surface during the execution of the skill.

**Brace:**

A physical connection that helps to provide stability from one top person to another top person. A top person's hair and/or uniform is not an appropriate or legal body part to use while bracing a pyramid or pyramid transition. A required brace/bracer cannot pass through an inverted position during the transition.

**Braced Flip:**

A stunt in which a top person performs a hip-over-head rotation while in constant physical contact with another top person(s).

**Bracer:**

A person in direct contact with a top person that helps to provide stability to the top person. This person is separate from a base or spotter. A required brace/bracer cannot pass through an inverted position during the transition.

**Cartwheel:**

A non-aerial tumbling skill where the athlete supports the weight of their body with their arm(s) while rotating sideways through an inverted position landing on one foot at a time.

**Catcher:**

Person(s) responsible for the safe landing of a top person during a stunt/dismount/toss/release. All catchers:

- 1 must be attentive
- 2 must not be involved in other choreography
- 3 must not be involved in anything that could prevent them from catching.  
Example: A required catcher holding a sign.
- 4 must make physical contact with the top person upon catching
- 5 must be on the performing surface when the skill is initiated

**Chair:**

A prep level stunt in which the base(s) supports the ankle of the top person with one hand and underneath the seat of the top person with the other hand. The supported leg must be in a vertical position underneath the torso of the top person.

**Coed Style Toss:**

A single base grabs the top person at the waist and tosses the top person from ground level.

**Cradle:**

A dismount in which the top person is caught in a cradle position.

**Cradle Position:**

Base(s) supporting a top person by placing arms wrapped under the back and under the legs of the top person. The top person must land in a "V"/pike/hollow body position (face up, legs straight and together) below prep level.

**Cupie:**

A stunt where a top person is in an upright (standing) position and has both feet together in the hand(s) of the base(s). Also referred to as an "Awesome."

**Dismount:**

The ending movement from a stunt or pyramid to a cradle or the performing surface.

Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

Movement from a cradle to the ground is not considered a "Dismount". When/if performing a skill from the cradle to the ground the skill will follow stunt rules (twisting, transitions, etc.)

**Dive Roll:**

An airborne tumbling skill with a forward roll where the athlete's feet leave the ground before the athlete's hands reach the ground.

**Downward Inversion:**

A stunt or pyramid in which an inverted person's center of gravity is moving towards the performing surface.

**Drop:**

Dropping to the knee, thigh, seat, front, back or split position onto the performing surface from an airborne position or inverted position without first bearing most of the weight on the hands/feet which breaks the impact of the drop.

**Extended Arm Level:**

The highest point of a base's arm(s) (not spotter's arms) when standing upright with the arm(s) fully extended over the head. Extended arms do not necessarily define an "extended stunt". See "Extended Stunt" for further clarification.

**Extended Position:**

A top person, in an upright position, supported by a base(s) with the base(s) arms extended. Extended arms do not necessarily define an "extended stunt". See "Extended Stunt" for further clarification.

**Extended Stunt:**

When the entire body of the top person is above the head of the base(s).

Examples of "Extended Stunts": Extension, Extended Liberty, Extended Cupie

Examples of stunts that are not considered "Extended Stunts": Chairs, torches, flat backs, arm-n-arms, straddle lifts, suspended rolls and leap frogs. (These are stunts where the base(s) arm(s) are extended overhead, but are NOT considered "Extended Stunts" since the height of the body of the top person is similar to a shoulder/prep level stunt.)

**Flat Back:**

A stunt in which the top person is laying horizontal, face-up, and is usually supported by two or more bases. This is considered a two-leg stunt.

**Flip (Stunting):**

A stunting skill that involves hip-over-head rotation without contact with the performing surface or base(s) as the body passes through the inverted position.

**Flip (Tumbling):**

A tumbling skill that involves hip-over-head rotation without contact with the performing surface as the body passes through the inverted position.

**Flipping Toss:**

A toss where the top person rotates through an inverted position.

**Floor Stunt:**

Base lying on performance surface on their back with arm(s) extended. A "Floor Stunt" is a waist level stunt.

**Flyer:**

See "Top Person".

**Forward Roll:**

A non-airborne tumbling skill where one rotates forward through an inverted position by lifting the hips over the head and shoulders while curving the spine to create a motion similar to a ball "rolling" across the floor.

**Free Flipping Stunt:**

A Stunt Release Move in which the top person passes through an inverted position without physical contact with a base, brace, or the performing surface. This does not include Release Moves that start inverted and rotate to non-inverted.

**Free Release Move:**

A release move in which the top person becomes free of contact with all bases, bracers, or the performing surface.

**Front Tuck:**

A tumbling skill in which the athlete generates momentum upward to perform a forward flip.

**Front Walkover:**

A non-aerial tumbling skill in which an athlete rotates forward through an inverted position to a non-inverted position by arching the legs and hips over the head and down to the performing surface landing one foot/leg at a time.

**Full:**

A 360 degree twisting rotation.

**Ground Level:**

To be on the performing surface.

**Hand/Arm Connection:**

The physical contact between two or more athletes using the hand(s)/arm(s). The shoulder is not considered a legal connection when hand/arm connection is required.

**Handspring:**

An airborne tumbling skill in which an athlete starts from the feet and jumps forwards or backwards rotating through a handstand position. The athlete then blocks off the hands by putting the weight on the arms and using a push from the shoulders to land back on the feet, completing the rotation.

**Handstand:**

A straight body inverted position where the arms of the athlete are extended straight by the head and ears.

**Helicopter:**

A stunt where a top person in a horizontal position is tossed to rotate around a vertical axis (like helicopter blades) before being caught by original bases.

**Horizontal Axis (Twisting in Stunts):**

An invisible line drawn from front to back through belly button of a non-upright top person.

**Initiation/Initiating:**

The beginning of a skill; the point from which it originates. The point of initiation for a building skill(s): stunt, pyramid, transition, release move, dismount, or toss is the bottom of the dip from which the skill originates.

**Inversion:**

The act of being inverted. See "Inverted".

**Inverted:**

When the athlete's shoulders are below her/his waist and at least one foot is above her/his head.

**Jump:**

An airborne position not involving hip-over-head rotation created by using one's own feet and lower body power to push off the performance surface.

**Jump Skill:**

A skill which involves a change in body position during a jump. i.e. toe touch, pike, etc

**Jump Turn:**

Any turn that is added to a jump. A "straight jump" with a turn does not make the jump a "jump skill".

**Kick Double:**

Skill, typically from a toss, which involves a kick and a 720 degree twisting rotation. A quarter turn performed by the top person during the kick portion is customary and permitted to initiate the twists.

**Kick Full:**

Skill, typically from a toss, which involves a kick and a 360 degree twisting rotation. A quarter turn performed by the top person during the kick portion is customary and permitted to initiate the twist.

**Layout:**

An airborne tumbling or toss skill which involves a hip over head rotation in a stretched, hollow body position.

**Leap Frog:**

A stunt in which a top person is transitioned from one set of bases to another, or back to the original bases, by passing over the torso and through the extended arms of the base. The top person remains upright and stays in continuous contact with the base while transitioning. Leap Frog Variations involve a top person transitioning over the torso of a base and/or another top person.

**Leg/Foot Connection:**

The physical contact between two or more athletes using the leg(s)/foot (feet). Any connection from the shin to the toe is considered a legal connection when leg/foot connection is allowed.

**Liberty:**

A stunt in which the base(s) hold one foot of the top person while the other foot is next to the knee by bending the leg.

**Load-In:**

A stunting position in which the top person has at least one foot in the base(s) hands. The base(s) hands are at waist level.

**Log Roll:**

A release move, that is initiated at waist level, in which the top person's body rotates at least 360 degrees while remaining parallel to the performing surface. An "Assisted Log Roll" would be the same skill, with assistance from an additional base that maintains contact throughout the transition.

**Multi-based Stunt:**

A stunt having 2 or more bases not including the spotter.

**New Base(s):**

Bases previously not in direct contact with the top person of a stunt.

**Non-Inverted Position:**

A body position in which either of the conditions below are met:

1. The top person's shoulders are at or above their waist.
2. The top person's shoulders are below their waist and both feet are below their head.

**Nugget:**

A body position in which an athlete is in a tucked position on their hands and knees on the performing surface. When an athlete in a nugget position is supporting a top person, they are considered a base of a waist level stunt.

**Onodi:**

Starting from a back hand-spring position after pushing off, the athlete performs a 1/2 twist to the hands, ending the skill as a front handspring step out.

**Original Base(s):**

Base(s) which is in contact with the top person during the initiation of the skill/stunt.

**Pancake:**

A downward inversion stunt in which both of the top person's legs/feet remain in the grip of a base(s) while performing a fold over/pike forward rotation to be caught on the top person's back.

**Paper Dolls:**

Single-leg stunts bracing each other while in the single leg position. The stunts may or may not be extended.

**Pike:**

Body bent forward at the hips with legs straight and together.

**Platform Position:**

A single leg stunt where the top person's non-supported leg is held straight next to the supporting leg. Also known as a "dangle" or "target position".

**Prep (stunt):**

A two leg stunt in which the top person is being held at shoulder level by the bases in an upright position.

**Prep Level:**

The lowest connection between the base(s) and the top person is above waist level and below extended level.

i.e. prep, shoulder level hitch, shoulder sit.

A stunt may also be considered at Prep-Level if the arm(s) of the base(s) are extended overhead, but are NOT considered "Extended Stunts" since the height of the body of the top person is similar to a shoulder/prep level stunt. i.e. flat back, straddle lifts, chair, T-lift.

A stunt is considered below Prep Level if at least one foot of the top person is at waist level, as determined by the height/positioning of the base. (Exception: chair, T-lift and shoulder sit are prep level stunts)

**Primary Support:**

Supporting a majority of the weight of the top person.

**Prone Position:**

A face down, flat body position.

**Prop:**

An object that can be manipulated. Flags, banners, signs, pom poms, megaphones, and pieces of cloth are the only props allowed. Any uniform piece purposefully removed from the body and used for visual effect will be considered a prop.

**Punch Front:**

See "Front Tuck".

**Pyramid:**

Two or more connected stunts.

**Rebound:**

An airborne position not involving hip-over-head rotation created by using one's own feet and lower body power to propel off the performance surface -- typically performed from or into a tumbling skill.

**Release Move:**

When the top person becomes free of contact with all people on the performing surface; see "Free Release Move"

**Rewind:**

A free-flipping release move from ground level used as an entrance skill into a stunt.

**Round Off:**

Similar to a cartwheel except the athlete lands with two feet placed together on the ground instead of one foot at a time, facing the direction from which they arrived.

**Running Tumbling:**

Tumbling that involves a forward step or a hurdle used to gain momentum as an entry to a tumbling skill.

**Second Level:**

Any person being supported above the performing surface by one or more bases.

**Series Front or Back Handsprings:**

Two or more front or back handsprings performed consecutively by an athlete.

**Shoulder Level:**

A stunt in which the connection between the base(s) and top person is at shoulder height of the base(s).

**Shoulder Sit:**

A stunt in which a top person sits on the shoulder(s) of a base(s). This is considered a prep level stunt.

**Shoulder Stand:**

A stunt in which an athlete stands on the shoulder(s) of a base(s).

**Shushunova:**

A straddle jump (toe touch) landing on the performing surface in a prone/push-up position.

**Single Based Stunt:**

A stunt using a single base for support.

**Single Leg Stunt:**

See "Stunt".

**Split Catch:**

A stunt with a top person who is in an upright position having knees forward. The base(s) is holding both inner thighs as the top person typically performs a high "V" motion, creating an "X" with the body.

**Sponge Toss:**

A stunt similar to a basket toss in which the top person is tossed from the "Load In" position. The top person has both feet in the bases' hands prior to the toss.

**Spotter:**

A person whose primary responsibility is to prevent injuries by protecting the head, neck, back and shoulders area of a top person during the performance of a stunt, pyramid or toss. All "Spotters" must be your own team's members and be trained in proper spotting techniques.

The spotter:

- must be standing to the side or the back of the stunt, pyramid or toss.
- must be in direct contact with the performing surface.
- must be attentive to the stunt being performed.
- must not be involved in anything that could prevent them from spotting.  
Example: A required spotter holding a sign.
- must be able to touch the base of the stunt in which they are spotting, but does not have to be in direct physical contact with the stunt.
- cannot stand so that their torso is under a stunt.
- may grab the wrist(s) of the base(s), other parts of the base(s) arms, the top person(s) legs/ankles, or does not have to touch the stunt at all.
- may not have both hands under the sole of the top person's foot/feet or under the hands of the bases.
- may not be considered both a base and the required spotter at the same time. If there is only one person under a top person's foot, regardless of hand placement, that person is considered a base.

Example: In a two leg stunt, the base of one of the legs is not allowed to also be considered the required spotter (regardless of the grip).

If the spotter's hand is under the top person's foot it must be their front hand. Their (the spotter's) back hand MUST be placed at the back of the ankle/leg of the top person or on the back side of the back wrist of the base.

**Standing Tumbling:**

A tumbling skill (series of skills) performed from a standing position without any previous forward momentum. Any number of steps backward prior to execution of tumbling skill(s) is still defined as "standing tumbling."

**Step Out:**

A tumbling skill that lands on one foot at a time as opposed to landing on both feet simultaneously.

**Straddle Lift:**

See "V-Sit".

**Straight Cradle:**

A release move/dismount from a stunt to a cradle position where the top person keeps their body in a "Straight Ride" position -- no skill (i.e. turn, kick, twist, pretty girl, etc.) is performed.

**Straight Ride:**

The body position of a top person performing a toss or dismount that doesn't involve any trick in the air. It is a straight line position that teaches the top to reach and to obtain maximum height on toss.

**Stunt:**

Any skill in which a top person is supported above the performance surface by one or more persons. A stunt is determined to be "One Leg" or "Two Leg" by the number of feet that the top person has being supported by a base(s). If the top person is not supported under any foot, then the number of legs in which the top person is supported will determine if it is a "One Leg" or a "Two Leg" stunt. Exception: If a top person is in a V-sit, pike position or non-upright flat body position the stunt will be considered a "Two Leg" stunt.

**Suspended Backward Roll:**

A suspended roll that rotates in a backward rotation. See Suspended Roll

**Suspended Forward Roll:**

A suspended roll that rotates in a forward rotation. See Suspended Roll

**Suspended Roll:**

A stunt skill that involves hip over head rotation from the top person while connected with hand/wrist to hand/wrist of the base(s) that is on the performing surface. The base(s) will have their arms extended and will release the feet/legs during the rotation of the skill. The rotation of the top person is limited to either forward or backward.

**T-Lift:**

A stunt in which a top person with arms in a t-motion is supported on either side by two bases that connects with each of the hands and under the arms of the top person. The top person remains in a non-inverted, vertical position while being supported in the stunt.

**Tension Roll/Drop:**

A pyramid/stunt in which the base(s) and top(s) lean forward in unison until the top person(s) leaves the base(s) without assistance. Traditionally the top person(s) and/or base(s) perform a forward roll after becoming free from contact from each other.

**Three Quarter (3/4) Front Flip (stunt):**

A forward hip-over-head rotation in which a top person is released from an upright position to a cradle position.

**Three Quarter (3/4) Front Flip (tumble):**

A forward hip-over-head rotation from an upright position to a seated position on the ground, with the hands and/or feet landing first.

**Tic-Tock:**

A stunt that is held in a static position on one leg, base(s) dip and release top person in an upward fashion, as the top person switches their weight to the other leg and lands in a static position on their opposite leg.

**Toe/Leg Pitch:**

A single or multi-based stunt in which the base(s) toss upward traditionally using a single foot or leg of the top person to increase the top person's height.

**Top Person:**

The athlete(s) being supported above the performance surface in a stunt, pyramid or toss.

**Toss:**

An airborne stunt where base(s) execute a throwing motion initiated from waist level to increase the height of the top person. The top person becomes free from all contact of bases, bracers and/or other top persons. The top person is free from performing surface when toss is initiated (ex: basket toss or sponge toss). Note: Toss to hands, toss to extended stunts and toss chair are NOT included in this category. (See Release Moves).

Twisting Tosses: Twisting is cumulative. All twisting up to 1 1/4 is considered 1 skill, exceeding 1 1/4 up to 2 1/4 is two skills. ie. A 1/2 twist, X, 1/2 twist is considered 2 skills: 1 full twist and 1 additional skill.

**Tower Pyramid:**

A stunt on top of a waist level stunt.

**Transitional Pyramid:**

A top person moving from one position to another in a pyramid. The transition may involve changing bases provided at least one athlete at prep level or below maintains constant contact with the top person.

**Transitional Stunt:**

Top person or top persons moving from one stunt position to another thereby changing the configuration of the beginning stunt. Each point of initiation is used in determining the beginning of a transition. The end of a transition is defined as a new point of initiation, a stop of movement, and/or the top person making contact with the performance surface.

**Traveling Toss:**

A toss which intentionally requires the bases or catchers to travel in a certain direction to catch the top person. (This does not include a quarter or half turn by the bases in tosses such as a "Kick Full").

**Tuck Position:**

A position in which the body is bent at the waist/hips with the knees drawn into the torso.

**Tumbling:**

Any hip over head skill that is not supported by a base that begins and ends on the performing surface.

**Twist:**

An athlete performing a rotation around their body's vertical axis. (vertical axis=head to toe axis)

**Twisting Stunt:**

Any twisting transition involving a top person and a base(s). The degree of twist is generally determined by the total continuous rotation(s) of the top person's hips in relation to the performance surface. Twisting will be measured by using both the "Vertical Axis" (head-to-toe) and "Horizontal Axis" (through belly button in a non-upright position). Simultaneous rotation on the Vertical and Horizontal axes should be considered separately, not cumulatively, when determining the degree of twist. A dip by the bases and/or change in direction of the twisting rotation, starts a new transition.

**Twisting Tumbling:**

A tumbling skill involving hip over head rotation in which an athlete rotates around their body's "Vertical Axis".

**Two – High Pyramid:**

A pyramid in which all top persons are primarily supported by a base(s) who is in direct weight-bearing contact with the performing surface. Any time a top person is released from their base(s) in a "Pyramid Release Move", *regardless of the height of the release*, this top person would be considered "passing above two persons high". "Passing above two persons high" does not relate to the actual height of the top person but to the number of layers to which they are connected.

**Two and One Half (2-1/2) – High Pyramid:**

A pyramid in which the top person(s) has weight bearing support (not braced) by at least one other top person and is free of contact from the base(s). Pyramid height for a "Two and One Half High Pyramid" is measured by body lengths as follows: chairs, thigh stands and shoulder straddles are 1½ body lengths; shoulder stands are 2 body lengths; extended stunts (i.e. extension, liberty, etc.) are 2½ body lengths.

"Above Two and One Half (2 1/2) High Pyramid" is a partially/fully upright prep level Middle Layer holding a fully upright prep level stunt. Exception: 2 1/2 high chairs are considered 2 1/2 high pyramids.

**Upright:**

A body position of a top person in which the athlete is in a standing **or sitting** position while being supported by a base(s).  
ie. star, liberty, v-sit.

**V-Sit:**

A top person's body position when sitting in a stunt with straight legs parallel to the performing surface in a "V" position. This is considered a two-leg stunt.

**Vertical Axis (Twisting in Stunts or Tumbling):**

An invisible line drawn from head to toe through the body of the tumbling athlete or top person.

**Waist Level:**

A stunt in which the lowest connection between the base(s) and the top person is above ground level and below prep level and/or at least one foot of the top person is below prep level, as determined by the height/positioning of the base. Examples of stunts that are considered waist level: All 4s position based stunts, a nugget-based stunt. A chair and a shoulder sit are considered prep level stunts, not waist level.

**Walkover:**

A non-aerial tumbling skill involving hip-over-head rotation in which a person rotates forward/backward (usually performed with the legs in a split position) with support from one or both hands.

**Whip:**

A non-twisting, backward-traveling, aerial tumbling skill in which the athlete's feet rotate over their head and body, while the body remains in a stretched upper back position. A "Whip" has the look of a back handspring without the hands contacting the ground.

**X-Out:**

A tumbling skill or toss in which an athlete performs a flip while spreading the arms and legs into an "x" fashion during the rotation of the flip.

# **GENERAL SAFETY RULES AND ROUTINE REQUIREMENTS**

1. All athletes must be supervised during all official functions by a qualified director/coach.
2. Coaches must require proficiency before skill progression. Coaches must consider the athlete, group and team skill levels with regard to proper performance level placement.
3. All teams, gyms, coaches and directors must have an emergency response plan in the event of an injury.
4. Athletes and coaches may not be under the influence of alcohol, narcotics, performance enhancing substances or over-the-counter medications that would hinder the ability to supervise or execute a routine safely, while participating in a practice or performance.
5. Athletes must practice and perform on an appropriate surface. Technical skills (stunts, pyramids, tosses or tumbling) may not be performed on concrete, asphalt, wet or uneven surfaces or surfaces with obstructions.
6. Soft-soled shoes must be worn while competing. No dance shoes/boots, and/or gymnastics slippers (or similar) allowed. Shoes must have a solid sole.
7. Jewelry of any kind, including but not limited to, ear, nose, tongue, belly button and facial rings, clear plastic jewelry, bracelets, necklaces and pins on uniforms is not allowed. Jewelry must be removed and may not be taped over. Exception: medical ID tags/bracelets.  
*Clarification: Rhinestones are legal when adhered to the uniform and illegal when adhered to the skin.*
8. Any height increasing apparatus used to propel an athlete is not allowed. Exception: spring floor.
9. Props are not necessary for the performance of a routine. If props are used in a routine the prop must receive pre-approval from IASF, prior to use, to ensure the safety of the athletes. Flags, banners, signs, pom poms, megaphones and pieces of cloth are the only props allowed. Props may not have sharp, unyielding, and/or pointed edges **and may not obstruct, or potentially obstruct, the athlete's vision**. No prop may be weight-bearing and/or athletes are not permitted to bear weight on any prop. Props with poles or similar support apparatus may not be used in conjunction with any kind of stunt or tumbling. All props must be safely discarded out of harm's way (example: throwing a hard sign across the mat from a stunt would be illegal). **Once a** uniform piece is purposefully used for visual effect it will be considered a prop.
10. Supports, braces and soft casts which are unaltered from the manufacturer's original design/production do not require any additional padding. Supports/braces and soft casts that have been altered from the manufacturer's original design/production must be padded with a closed-cell, slow-recovery foam padding no less than one-half inch thick if the participant is involved in stunts, pyramids or tosses. A participant wearing a hard cast (example: fiberglass or plaster) or a walking boot must not be involved in stunts, pyramids, tumbling or tosses.
11. On the level grid, all skills allowed at a particular level encompass all skills allowed in the preceding level. If a skill is not allowed in a particular level, it is also not allowed in the preceding level(s).
12. Required spotters for all skills must be your own team's members, and be trained in proper spotting techniques.
13. Drops including but not limited to knee, seat, front, back and split drops from a jump, stunt, or inverted position are not allowed unless the majority of the weight is first borne on the hands or feet, which breaks the impact of the drop. Shushunovas are allowed.  
*Clarification: Drops that include any weight bearing contact with the hands and feet are not in clear violation of this rule.*
14. Routine performance time may not exceed 2:30. Timing will begin with the first movement, voice, or note of music, whichever comes first. Timing will end with the last movement, last voice, or note of music, whichever comes last.  
*Clarification: All Star Prep routines shall not exceed 2:00. Novice routines shall not exceed 1:30. Non-tumbling routines may not exceed 2:00, Global routines may not exceed 3:30 and music portion may not exceed 2:30.*
15. Athletes must have at least one foot, hand or body part (other than hair) on the performing surface when the routine begins. Exception: Athletes may have their feet in the hands of base(s) if the base(s) hands are resting on the performing surface.
16. The competitors who begin a routine must remain the same throughout the course of a routine. A performer is not permitted to be "replaced" by another performer during a routine.
17. An athlete must not have gum, candy, cough drops or other such edible or non-edible items, which may cause choking, in her/his mouth during practice and/or performance.

# **LEVEL 1 RULES**

## **LEVEL 1 GENERAL TUMBLING**

- A.** All tumbling must originate from and land on the performing surface.  
*Clarification: A tumbler may rebound from his/her feet into a stunt transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.*  
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.  
Exception: Rebounding to a prone position (1/2 twist to stomach) in a stunt is allowed in Level 1.
- B.** Tumbling over, under, or through a stunt, individual, or prop, is not allowed.  
*Clarification: Tumbling over/under an athlete's body (including arms and/or legs) is not allowed.*  
*Clarification: An individual may jump (rebound) over another individual.*
- C.** Tumbling while holding or in contact with any prop is not allowed.
- D.** Dive rolls are not allowed.
- E.** Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump is included in a tumbling pass, the jump will break up the pass.

## **LEVEL 1 STANDING/RUNNING TUMBLING**

- A.** Skills must involve constant physical contact with the performing surface.  
Exception: Block cartwheels and round offs are allowed.
- B.** Forward and backward rolls, front and back walkovers, and handstands are allowed.
- C.** Cartwheels and round offs are allowed.
- D.** No tumbling is allowed in immediate combination after a round off. If tumbling does occur after a round off a clear and distinct pause must immediately follow a round off or round off rebound.
- E.** Front and back handsprings are not allowed.

## **LEVEL 1 STUNTS**

- A.** Spotters
  - 1.** A spotter is required for each top person at prep level and above.  
Example: Suspended splits, flat-bodied positions and preps are examples of prep level stunts. Extended arm stunts that are not in the upright position (such as extended v-sits, extended flat backs, etc.) are considered prep level stunts.  
*Clarification: The center base in an extended v-sit may be considered a spotter as long as they are in a position to protect the head and shoulders of the top person.*  
*Clarification 2: If the primary bases squat, go to their knees or drop the overall height of the stunt while extending their arms (excluding floor stunts), this skill would be considered extended and therefore illegal, regardless of the back spot's positioning.*  
Exception: Shoulder sits/straddles & T-Lifts and stunts with up to a 1/2 twist transition where the top person starts and ends on the performance surface and is only supported at the waist, do not require a spotter.
  - 2.** A spotter is required for each top person in a floor stunt.  
*Clarification: The spotter may grab the top person's waist in a floor stunt.*
- B.** Stunt Levels
  - 1.** Single leg stunts are only allowed at waist level.  
Exception 1: Prep level single leg stunts are allowed if the top person is connected to someone standing on the performance surface, which must be a separate person other than the base(s) or spotter. The connection must be hand/arm to hand/arm and must be made prior to initiating the single leg prep level stunt.  
Exception 2: A walk up shoulder stand is legal in level 1 if both hands of the top person are in contact with both hands of the base until both feet of the top person are placed on the shoulders of the base.
  - 2.** Stunts above prep level are not allowed. A stunt may not pass above prep level.  
*Clarification: Taking the top person above the head of the bases would be illegal*

- C.** Twisting stunts and transitions are allowed up to a ¼ twisting rotation by the top person in relation to the performing surface.  
*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds ¼ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, then they may continue to walk the stunt in additional rotation.*  
 Exception 1: Rebounding to a prone position (½ twist to stomach) in a stunt is allowed in Level 1.  
 Exception 2: ½ Wrap around stunts are legal in Level 1.  
 Exception 3: Up to a ½ twist is allowed if the top person starts and ends on performance surface and is only supported at the waist and does not require an additional spotter.
- D.** During transitions, at least one base must remain in contact with the top person.  
 Exception: Leap frogs and leap frog variations are not allowed in L1.
- E.** Free flipping or assisted flipping stunts and transitions are not allowed.
- F.** No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual.  
*Clarification: This pertains to an athlete's torso/head moving over or under the torso/head of another athlete; not the arms or legs.*  
*Clarification: A top person may not pass over or under the torso/head of another top person regardless if the stunt or pyramid is separate or not.*  
 Example: A shoulder sit walking under a prep is illegal.  
 Exception: An individual may jump over another individual.
- G.** Single based split catches are not allowed.
- H.** Single based stunts with multiple top persons are not allowed.
- I.** L1 Stunts-Release Moves
1. Release moves are not allowed other than those allowed at Level 1 in "Dismounts".
  2. Release moves may not land in a prone or inverted position.
  3. Release moves must return to original bases.  
*Clarification: An individual may not land on the performing surface without assistance.*
  4. Helicopters are not allowed.
  5. A single full twisting log/barrel roll is not allowed.
  6. Release moves may not intentionally travel.
  7. Release moves may not pass over, under or through other stunts, pyramids, individuals or **props**.
- J.** L1 Stunts-Inversions
1. Inversions are not allowed.  
*Clarification: All inverted athletes must maintain contact with the performance surface (see tumbling L1 tumbling rules).*  
 Example: A supported handstand on the performance surface is not considered a stunt but is a legal inversion.
- K.** Bases may not support any weight of a top person while that base is in a backbend or inverted position.  
*Clarification: A person standing on the ground is not considered a top person.*

## LEVEL 1 PYRAMIDS

- A.** Pyramids must follow Level 1 "Stunts" and "Dismounts" rules and are allowed up to 2 high.
1. Single based or assisted single based EXTENDED stunts are not allowed in Tiny, Mini and Youth divisions.  
*Clarification: Single based or assisted single based stunts may immediately pass through an extended position.*
- B.** Top person must receive primary support from a base.  
*Clarification: Anytime a top person is released by the bases during a pyramid transition, the top person must land in a cradle or dismount to the performing surface and must follow the L1 dismount rules.*
- C.** Two leg stunts:
1. Two leg extended stunts must be braced by a top person at prep level or below with hand-arm connection only.
    - a. The connection must be made prior to initiating the two leg extended stunt.
    - b. Prep level top person bracers must have both feet in bases' hands.  
 Exception: Prep level top persons do not have to have both feet in the bases' hands if they are in a shoulder sit, flat back, straddle lift or shoulder stand.
  2. Two leg extended stunts may not brace or be braced by other extended stunts.
- D.** Single Leg Stunts

1. Prep level single leg stunts must be braced by at least one person at prep level or below with hand-arm connection only.
    - a. The connection must be made prior to initiating the single leg prep level stunt.
    - b. Prep level bracers must have both feet in bases' hands.  
Exception: Prep level bracers do not have to have both feet in the bases' hands if they are in a shoulder sit, flat back, straddle lift or shoulder stand.
  2. Extended single leg stunts are not allowed.
- E.** No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual.  
*Clarification: A top person may not pass over or under the torso/head of another top person regardless if the stunt or pyramid is separate or not.*  
Example: A shoulder sit walking under a prep is illegal.

## LEVEL 1 DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- A.** Cradles from single based stunts must have a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- B.** Cradles from multi-based stunts must have two catchers and a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.  
*Clarification: Sponge, Load In, Squish cradles are considered tosses and are not allowed. See Level 1 Tosses.*  
*Clarification: All waist level cradles are illegal.*
- C.** Dismounts must return to original base(s).  
Exception: dismounts to the performing surface must be assisted by either an original base and/or spotter.  
Exception: straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface without assistance.  
*Clarification: An individual may not land on the performing surface from above waist level without assistance.*
- D.** Only straight pop downs and basic straight cradles are allowed.
- E.** Twisting dismounts (including ¼ turns) are not allowed.
- F.** No stunt, pyramid, individual, or prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- G.** No dismounts are allowed from skills above prep level in pyramids.  
*Clarification: An extended stunt in a pyramid must be brought down to prep level or below before it can be dismounted.*
- H.** No free flipping or assisted flipping dismounts allowed.
- I.** Dismounts may not intentionally travel.
- J.** Top persons in dismounts may not come in contact with each other while released from the bases.
- K.** Tension drops/rolls of any kind are not allowed.

## LEVEL 1 TOSSES

- A.** No tosses allowed.  
*Clarification: This includes "Sponge" (also known as Load In or Squish) tosses.*  
*Clarification: All waist level cradles are illegal.*

# **LEVEL 2 RULES**

## **LEVEL 2 GENERAL TUMBLING**

- A.** All tumbling must originate from and land on the performing surface.  
*Clarification: A tumbler may rebound from his/her feet into a stunt transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.*  
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
- B.** Tumbling over, under, or through a stunt, individual, or prop, is not allowed.  
*Clarification: Tumbling over/under an athlete's body (including arms and/or legs) is not allowed.*  
*Clarification: An individual may jump (rebound) over another individual.*
- C.** Tumbling while holding or in contact with any prop is not allowed.
- D.** Dive rolls are allowed.  
Exception: Dive rolls performed in a swan/arched position are not allowed.  
Exception: Dive rolls that involve twisting are not allowed.
- E.** Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump is included in a tumbling pass, the jump will break up the pass.
- F.** There is no twisting or turning allowed after a back handspring step out. The feet must come together after the skill is completed prior to twisting or turning.  
Example: Back handspring step out > ½ turn = Illegal.

## **LEVEL 2 STANDING TUMBLING**

- A.** Flips and aerials are not allowed.
- B.** Series front and back handsprings are not allowed.  
*Clarification: A back walkover into a back handspring is allowed.*
- C.** Jump skills in immediate combination with handspring(s) are not allowed.  
Example: Toe touch handsprings and handspring toe touches are not allowed.
- D.** No twisting while airborne.  
Exception: Round offs are allowed.

## **LEVEL 2 RUNNING TUMBLING**

- A.** Flips and aerials are not allowed.
- B.** Series front and back handsprings are allowed.
- C.** No twisting while airborne.  
Exception: Round offs are allowed.

## **LEVEL 2 STUNTS**

- A.** Spotters
  - 1.** A spotter is required for each top person above prep level.
  - 2.** A spotter is required for each top person in a floor stunt.  
*Clarification: The spotter may grab the top person's waist in a floor stunt.*
- B.** Stunt Levels
  - 1.** Single leg stunts above prep level are not allowed. A single leg stunt may not pass above prep level.  
*Clarification 1: Taking the top person in a single leg stunt above the head of the bases would be illegal.*  
*Clarification 2: If the primary bases squat, go to their knees or drop the overall height of the stunt while extending their arms (excluding floor stunts), this skill would be considered extended and therefore illegal, regardless of the back spot's positioning.*
  - 2.** Single based or assisted single based EXTENDED stunts are not allowed in Mini and Youth divisions.  
*Clarification: Single based or assisted single based stunts may immediately pass through an extended position.*

- C.** Twisting stunts and transitions are allowed up to a total of ½ twisting rotation by the top person in relation to the performing surface.  
*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds ½ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*  
 Exception: A single full twisting log/barrel roll is allowed as long as it starts and ends in a cradle position and is assisted by a base.  
*Clarification: Log/Barrel roll may not include any skill (example: kick full twists) other than the twist.*  
*Clarification: The log roll may not be assisted by another top person.*
- D.** During transitions, at least one base must remain in contact with the top person.
- E.** Free flipping or assisted flipping stunts and transitions are not allowed.
- F.** No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual.  
*Clarification: This pertains to an athlete's torso/head moving over or under the torso/head of another athlete; not the arms or legs.*  
*Clarification: A top person may not pass over or under the torso/head of another top person regardless if the stunt or pyramid is separate or not.*  
 Example: A shoulder sit walking under prep is illegal.  
 Exception: An individual may jump over another individual.
- G.** Single based split catches are not allowed.
- H.** Single based stunts with multiple top persons are not allowed.
- I.** L2 Stunts - Release Moves
1. No release moves allowed other than those allowed at Level 2 in "Dismounts" and "Tosses."
  2. Release moves may not land in a prone or inverted position.
  3. Release moves must return to original bases.  
*Clarification: An individual may not land on the performing surface without assistance.*  
 Exception: See L2 Dismount "C".
  4. Releasing from inverted to non-inverted is not allowed.
  5. Helicopters are not allowed.
  6. A single full twisting log/barrel roll is allowed as long as it starts and ends in a cradle position.  
*Clarification: Single based log rolls must have two catchers. Multi-based log rolls must have 3 catchers.*  
*Clarification: The log roll may not be assisted by another top person.*  
*Clarification: Log/Barrel roll must return to original bases and may not include any skill other than the twist.*  
 Example: no kick full twists
  7. Release moves may not intentionally travel.
  8. Release moves may not pass over, under or through other stunts, pyramids, individuals or **props**.
- J.** L2 Stunts-Inversions
1. Transitions from ground level inversions to non-inverted positions are allowed. No other inversions are allowed.  
*Clarification: All inverted athletes must maintain contact with the performance surface unless the top person is being lifted directly to non-inverted position.*  
 Example: Legal: Going from a handstand on the ground to a non-inverted stunt such as a shoulder sit.  
 Example: Illegal: Going from a cradle to a handstand or from a prone position to a forward roll.
- K.** Bases may not support any weight of a top person while that base is in a backbend or inverted position.  
*Clarification: A person standing on the ground is not considered a top person.*

## LEVEL 2 PYRAMIDS

- A.** Pyramids must follow Level 2 "Stunts" and "Dismounts" rules and are allowed up to 2 high.
1. Single based or assisted single based EXTENDED stunts are not allowed in Mini and Youth divisions.  
*Clarification: Single based or assisted single based stunts may immediately pass through an extended position.*
- B.** Top persons must receive primary support from a base.  
*Clarification: Anytime a top person is released by the bases during a pyramid transition, the top person must land in a cradle or dismount to the performing surface, may not be connected to a bracer that is above prep level, and must follow the L2 dismount rules.*
- C.** Extended stunts may not brace or be braced by any other extended stunts.

- D.** No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual.  
*Clarification: A top person may not pass over or under the torso/head of another top person regardless if the stunt or pyramid is separate or not.*  
 Example: A shoulder sit walking under a prep is illegal.
- E.** Extended single-leg stunts:
- 1.** Extended single-leg stunts must be braced by at least one top person at prep level or below with hand-arm connection only. The hand-arm of the top person must be, and remain, connected to the hand-arm of the bracer.
  - 2.** The connection must be made prior to initiating the extended single leg stunt.
  - 3.** Prep level top persons must have both feet in bases' hands.  
 Exception: Prep level top persons do not have to have both feet in the bases' hands if they are in a shoulder sit, flat back, straddle lift or shoulder stand.

## LEVEL 2 DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- A.** Cradles from single based stunts must have a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- B.** Cradles from multi-based stunts must have two catchers and a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.  
*Clarification: Sponge, Load In, Squish cradles are considered tosses and are not allowed in Mini Divisions. See Level 2 Tosses.*  
*Clarification: All waist level cradles are not allowed in Mini Divisions.*
- C.** Dismounts must return to original base(s).  
 Exception: dismounts to the performing surface must be assisted by either an original base and/or spotter.  
 Exception: straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface without assistance.  
*Clarification: An individual may not land on the performing surface from above waist level without assistance.*
- D.** Only straight pop downs, basic straight cradles and ¼ turn cradles are allowed.
- E.** Twisting dismounts exceeding ¼ turn are not allowed. All other positions are not allowed.  
 Example: toe touch, pike, tuck, etc. are not allowed.
- F.** No stunt, pyramid, individual, or prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- G.** Cradles from extended single leg stunts in pyramids are allowed.
- H.** No free flipping or assisted flipping dismounts allowed.
- I.** Dismounts may not intentionally travel.
- J.** Top persons in dismounts may not come in contact with each other while released from the bases.
- K.** Tension drops/rolls of any kind are not allowed.

## LEVEL 2 TOSSES

- A.** Tosses are allowed up to a total of 4 tossing bases. One base must be behind the top person during the toss and may assist the top person into the toss.
- B.** Tosses must be performed with all bases having their feet on the performing surface and must land in a cradle position. Top person must be caught in a cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person. Bases must remain stationary during the toss.  
 Example: No intentional traveling tosses.
- C.** The top person in a toss must have both feet in/on hands of bases when the toss is initiated.
- D.** Flipping, twisting, inverted or traveling tosses are not allowed.
- E.** No stunt, pyramid, individual, or prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F.** The only body position allowed is a straight ride.  
*Clarification: An exaggerated arch would not be included as a straight ride and therefore considered illegal.*
- G.** During the straight body ride, the top person may use different arm variations such as (but not limited to) a salute or blowing a kiss but must keep the legs and body in the straight ride position.
- H.** Top persons in separate tosses may not come in contact with each other and must become free of all contact from bases, bracers and/or other top persons.

- I. Only a single person is allowed during a toss.
- J. Tosses are not allowed in the Mini division.  
*Clarification: This includes "Sponge" tosses.*  
*Clarification: All waist level cradles are illegal.*

# **LEVEL 3 RULES**

## **LEVEL 3 GENERAL TUMBLING**

- A.** All tumbling must originate from and land on the performing surface.  
*Clarification: A tumbler may rebound from his/her feet into a stunt transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.*  
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
- B.** Tumbling over, under, or through a stunt, individual, or prop, is not allowed.  
*Clarification: Tumbling over/under an athlete's body (including arms and/or legs) is not allowed.*  
*Clarification: An individual may jump (rebound) over another individual.*
- C.** Tumbling while holding or in contact with any prop is not allowed.
- D.** Dive rolls are allowed.  
Exception: Dive rolls performed in a swan/arched position are not allowed.  
Exception: Dive rolls that involve twisting are not allowed.
- E.** Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump is included in a tumbling pass, the jump will break up the pass.  
Example: round off >toe touch> back handspring >back tuck= Illegal. A back tuck is not allowed in Standing Tumbling in L3.

## **LEVEL 3 STANDING TUMBLING**

- A.** Flips are not allowed.  
*Clarification: Jumps connected to  $\frac{3}{4}$  front flips are also not allowed.*
- B.** Series front and back handsprings are allowed.
- C.** No twisting while airborne.  
Exception: Round offs are allowed.

## **LEVEL 3 RUNNING TUMBLING**

- A.** Flips:
1. Back Flips may ONLY be performed in tuck position only from a round off or round off back handspring(s).  
Examples of skills not allowed: X-outs, layouts, layout step outs, whips, pikes, aerial walkovers, and Arabians.
  2. Other skills with hand support prior to the round off or round off back handspring are allowed.  
Example: Front handsprings and front walkover through to round off back handspring back tucks are legal.
  3. Cartwheel tucked flips and/or cartwheel>back handspring(s)>tucks are not allowed.
  4. Aerial cartwheels, running front tucks, and  $\frac{3}{4}$  front flips are allowed.  
*Clarification: A front handspring (or any other tumbling skill) into a front tuck is illegal.*
- B.** No tumbling is allowed after a flip or an aerial cartwheel.  
*Clarification: If any tumbling follows a flip or an aerial cartwheel, at least one step into the next tumbling skill must be included to separate the two passes. Stepping out of a flip is considered a continuation of the same tumbling pass. An athlete must take an additional step out of a flip step out. However, if the athlete finishes the skill with both feet together, then one step is all that is needed to create a new tumbling pass.*
- C.** No twisting while airborne.  
Exception: Round offs are allowed.  
Exception: Aerial cartwheels are allowed.

## **LEVEL 3 STUNTS**

- A.** Spotters
1. A spotter is required for each top person above prep level.
- B.** Stunt Levels
1. Single leg extended stunts are allowed.

2. Single based or assisted single based EXTENDED stunts are not allowed in Youth divisions.  
*Clarification:* Single based or assisted single based stunts may immediately pass through an extended position.
- C. Twisting stunts and transitions:**
1. Twisting stunts and transitions are allowed up to one twisting rotation by the top person in relation to the performing surface.  
*Clarification:* A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 1 rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.
  2. Full twisting transitions must land at and originate from prep level or below only.  
Example: No full ups to an extended position.
  3. Twisting transitions to and from an extended position may not exceed a ½ twisting rotation.  
*Clarification:* A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds ½ rotation.
- D.** During transitions, at least one base must remain in contact with the top person.  
Exception: See L3 Release Moves
- E.** Free flipping stunts and transitions are not allowed.
- F.** No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual.  
*Clarification:* This pertains to an athlete's torso/head moving over or under the torso/head of another athlete; not the arms or legs.  
*Clarification:* A top person may not pass over or under the torso/head of another top person regardless if the stunt or pyramid is separate or not.  
Example: A shoulder sit walking under prep is illegal.  
Exception: An individual may jump over another individual.
- G.** Single based split catches are not allowed.
- H.** Single based stunts with multiple top persons require a separate spotter for each top person. Extended single leg top persons may not connect to any other extended top person.
- I. L3 Stunts-Release Moves**
1. Release moves are allowed but must not pass above extended arm level.  
*Clarification:* If the release move passes above the bases' extended arm level, it will be considered a toss and/or dismount, and must follow the appropriate "Toss" and/or "Dismount" rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person's legs, it will be considered a toss or dismount and must follow the appropriate "Toss" or "Dismount" rules.
  2. Release moves may not land in an inverted position. Releasing from inverted to non-inverted is not allowed.
  3. Release moves must start at waist level or below and must be caught at prep level or below.
  4. Release skills that land in a non-upright position must have 3 catchers for a multi-based stunt and 2 catchers for a single based stunt.
  5. Release moves are restricted to a single skill/trick and zero twists. Only skills performed during the release are counted. Therefore; hitting an immediate body position would not be counted as a skill.  
Exception: Log/barrel rolls may twist up to one rotation and must land in a cradle, or flat and horizontal, body position. i.e. Flat back or prone  
*Clarification:* Single based log rolls must have two catchers. Multi-based log rolls must have 3 catchers.
  6. Release moves must return to original bases.  
*Clarification:* An individual may not land on the performing surface without assistance.  
Exception: See L3 Dismount "C".  
Exception: Dismounting single based stunts with multiple top persons.
  7. Helicopters are not allowed.
  8. Release moves may not intentionally travel.
  9. Release moves may not pass over, under or through other stunts, pyramids, individuals or props.
  10. Top persons in separate release moves may not come in contact with each other.  
Exception: Dismounting single based stunts with multiple top persons.

## J. L3 Stunts–Inversions

1. No inverted stunts above shoulder level. The connection and support of the top person with the base(s) must be at shoulder level or below.  
Exception: Multi-based suspended rolls to a cradle, load in position, flat body prep level stunt or the performing surface are allowed. Multi-based suspended rolls must be supported by two hands. Both hands of the top person must be connected to a separate hand of the base(s).
  2. Inversions are limited to a ½ twisting rotation to extended level and one twisting rotation to prep level and below.  
Exception: Multi-based suspended forward roll may twist up to a full twisting rotation. (see #1. Exception above)  
Forward Suspended Roll exceeding ½ twist must land in cradle.  
Exception: In a multi-based suspended backward roll, the top person may not twist.
  3. Downward inversions are only allowed at waist level and must be assisted by at least two bases/catchers positioned at the waist to shoulder region to protect the head and shoulder area. Top person must maintain contact with an original base.  
*Clarification 1: The stunt may not pass through prep level and then become inverted below prep level (the momentum of the top person coming down is the primary safety concern).*  
*Clarification 2: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area.*  
*Clarification 3: Two leg "Pancake" stunts are not allowed in Level 3.*
  4. Downward inversions may not come in contact with each other.
- K. Bases may not support any weight of a top person while that base is in a backbend or inverted position.  
*Clarification: A person standing on the ground is not considered a top person.*

## LEVEL 3 PYRAMIDS

- A. Pyramids must follow Level 3 "Stunts" and "Dismounts" rules and are allowed up to 2 high.  
1. Single based or assisted single based EXTENDED stunts are not allowed in Youth divisions.  
*Clarification: Single based or assisted single based stunts may immediately pass through an extended position.*
- B. Top persons must receive primary support from a base.  
Exception: See L3 Pyramid Release Moves.
- C. Extended single leg stunts may not brace or be braced by any other extended stunts.
- D. No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual.  
*Clarification: A top person may not pass over or under the torso/head of another top person regardless if the stunt or pyramid is separate or not.*  
Example: shoulder sits walking under a prep.
- E. Twisting stunts and transitions **TO extended** skills are allowed up to 1 twist, if connected to at least ONE bracer at prep level or below and at least one base. The connection to the bracer must be hand/arm to hand/arm. The connection must be made prior to the initiation of the skill and must remain in contact throughout the skill. Hand/arm does not include shoulder.
- F. L3 Pyramids-Release Moves  
Any skill legal as a L3 Pyramid Release Move is also legal if it remains connected to a base and two bracers. Anytime a top person is released by the bases during a pyramid transition and does not adhere to the following four rules, the top person must land in a cradle or dismount to the performing surface and must follow the L3 dismount rules.  
1. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least two persons at prep level or below. Contact must be maintained with the same bracers throughout entire transition.  
*Clarification 1: Twisting stunts and transitions are allowed up to 1 twist, if connected to at least two bracers at prep level or below with arm/arm connections. The connection must be made prior to the initiation of the skill and must remain in contact throughout the skill.*  
*Clarification 2: Level 3 Pyramid Release Moves may incorporate stunt release moves that maintain contact with one other top person provided the Release move meet the criteria established under L3 Stunt Release Moves or L3 Dismounts.*
2. Top person must remain in direct contact with at least two different top persons at prep level or below. One of these contacts must be hand/arm-to-hand/arm. The second contact may be either hand/arm-to-hand/arm or hand/arm-to-foot/lower-leg (below knee).

*Clarification: Pyramid Release Moves must be braced on two separate sides (i.e. right side-left side, left side - back side, etc.) by two separate bracers. (Example: two bracers on the same arm will no longer be permitted) A top person must be braced on 2 of the 4 sides (front, back, right, left) of her/his body.*

*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*

3. Primary weight may not be borne at second level.

*Clarification: The transition must be continuous.*

4. These release transitions may not involve changing bases.
5. These transitions must be caught by at least 2 catchers (minimum of one catcher and one spotter).
  - a. Both catchers must be stationary.
  - b. Both catchers must maintain visual contact with the top person throughout the entire transition.
6. Release moves may not be braced/connected to top persons above prep level.

#### **G. L3 Pyramids-Inversions**

1. Must follow L3 Stunt Inversions rules.
2. A top person may pass through an inverted position, during a pyramid transition, if the top person remains in contact with a base(s) that is in direct weight bearing contact with the performing surface and a bracer at prep level or below. The top person must remain in contact with both the bracer and the base throughout the transition. The base that remains in contact with the top person may extend their arms during the transition, if the skill starts and ends in a position at prep level or below.

Example: A flat back split which rolls to a load in position would be legal even if the base extends their arms during the inversion skill.

Example: A flat back split which rolls to an extended position would be illegal because it did not first land in a position below extended level.

#### **H. L3 Pyramids - Release Moves w/ Braced Inversions**

1. Pyramid transitions may not involve inversions while released from the bases.

### **LEVEL 3 DISMOUNTS**

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- A. Cradles from single based stunts must have a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- B. Cradles from multi-based stunts must have two catchers and a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- C. Dismounts must return to original base(s)  
Exception: dismounts to the performing surface must be assisted by either an original base and/or spotter.  
Exception: straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface without assistance.  
*Clarification: An individual may not land on the performing surface from above waist level without assistance.*
- D. Only straight pop downs, basic straight cradles and ¼ turn cradles are allowed from any single leg stunt.
- E. Up to 1-¼ twists are allowed from any two leg stunts.  
*Clarification: Twisting out of a platform position is not allowed. Platform is not considered a two leg stunt. There are specific exceptions given for the platform body position at Level 4 Stunts Twisting Stunts and Transitions only.*
- F. No stunt, pyramid, individual, or, prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- G. Up to 1 trick allowed during a dismount from any two leg stunt.
- H. Any dismount from prep level and above involving a skill/trick (i.e. twist, toe touch) must be caught in a cradle.
- I. No free flipping dismounts allowed.
- J. Dismounts may not intentionally travel.
- K. Top persons in dismounts may not come in contact with each other while released from the bases.
- L. Tension drops/rolls of any kind are not allowed.
- M. When cradling single based stunts with multiple top persons, 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of the dismount.
- N. Dismounts from an inverted position are not allowed

### LEVEL 3 TOSSES

- A.** Tosses are allowed up to a total of 4 tossing bases. One base must be behind the top person during the toss and may assist the top person into the toss.
- B.** Tosses must be performed with all bases having their feet on the performing surface and must land in a cradle position. Top person must be caught in a cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person. Bases must remain stationary during the toss.  
Example: no intentional traveling tosses.  
Exception: A  $\frac{1}{4}$  turn is allowed by bases as in a  $1\frac{1}{4}$  twist basket.
- C.** The top person in a toss must have both feet in/on hands of bases when the toss is initiated.
- D.** Flipping, inverted or traveling tosses are not allowed.
- E.** No stunt, pyramid, individual, or, prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F.** Up to 1 trick allowed during a toss. Twisting tosses may not exceed  $1\frac{1}{4}$  twisting rotation.  
(Example 1: Legal: toe-touch, ball out, pretty girl)  
(Example 2: Illegal: Switch kick, pretty girl-kick, double toe-touch)  
*Clarification: The 'arch' does not count as a trick.*  
Exception: A Ball-X toss is allowed at this level as an "EXCEPTION".
- G.** During a twisting toss, no skill other than the twist is allowed.  
Example: No kick fulls,  $\frac{1}{2}$  twist toe touches.
- H.** Top persons in separate tosses may not come in contact with each other and must become free of all contact from bases, bracers and/or other top persons.
- I.** Only a single top person is allowed during a toss.

# LEVEL 4 RULES

## LEVEL 4 GENERAL TUMBLING

- A.** All tumbling must originate from and land on the performing surface.  
*Clarification: A tumbler may rebound from his/her feet into a stunt transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.*  
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
- B.** Tumbling over, under, or through a stunt, individual, or prop, is not allowed.  
*Clarification: Tumbling over/under an athlete's body (including arms and/or legs) is not allowed.*  
*Clarification: An individual may jump (rebound) over another individual.*
- C.** Tumbling while holding or in contact with any prop is not allowed.
- D.** Dive rolls are allowed.  
Exception: Dive rolls performed in a swan/arched position are not allowed.  
Exception: Dive rolls that involve twisting are not allowed.
- E.** Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump is included in a tumbling pass, the jump will break up the pass.  
Example: If an athlete in L4 were to do a round off – toe touch – back handspring – whip - layout, this would be considered illegal since consecutive a flip-flip combination is not allowed in Standing Tumbling for L4.

## LEVEL 4 STANDING TUMBLING

- A.** Standing flips and flips from a back handspring entry are allowed.
- B.** Skills are allowed up to 1 flipping and 0 twisting rotations. **Flips may ONLY be performed in a tuck position. Examples of skills not allowed: X-outs, layouts, layout step outs, whips, pikes, aerial walkovers, and Arabians.**  
Exception: Aerial cartwheels and Onodis are allowed.
- C.** Jump skills are not allowed in immediate combination with a standing flip.  
Example: Toe touch back tucks, back tuck toe touches, pike jump front flips are not allowed.  
*Clarification: Jumps connected to  $\frac{3}{4}$  front flips are not allowed.*  
*Clarification: Toe touch back handspring back tucks are allowed because the flip skill is not connected immediately after the jump skill.*
- D.** **No tumbling is allowed after a flip, aerial cartwheel or Onodi.**

## LEVEL 4 RUNNING TUMBLING

- A.** Skills are allowed up to 1 flipping and 0 twisting rotations.  
Exception: Aerial cartwheels and Onodis are allowed.

## LEVEL 4 STUNTS

- A.** Spotters
1. A spotter is required for each top person above prep level.
- B.** Stunt Levels
1. Single leg extended stunts are allowed.
  2. Single based or assisted single based EXTENDED stunts are not allowed in Youth divisions.  
*Clarification: Single based or assisted single based stunts may immediately pass through an extended position.*
- C.** Twisting stunts and transitions:
1. Twisting stunts and transitions to prep level and below are allowed up to 1-1/2 twisting rotations by the top person in relation to the performing surface.  
*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 1-1/2 rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*

2. Twisting stunts and transitions to an extended position are allowed and must meet the following conditions:

a. Extended skills up to ½ twist are allowed.

Example: ½ up to extended single leg stunt is legal.

*Clarification: Any additional turn performed by the bases in the same skill set would be illegal if the resulting cumulative rotation of the top person exceeds ½ rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*

b. Extended skills exceeding ½ and up to 1 twist must land in a two leg stunt, platform position or a liberty (body position variations are not allowed).

Example: full up to immediate extended heel stretch is illegal, full up to extension is legal.

Clarification: An extended platform position must be visibly held prior to hitting a single leg stunt other than a liberty.

*Clarification: Any additional turn performed by the bases in the same skill set would be illegal if the resulting cumulative rotation of the top person exceeds 1 rotation. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*

D. During transitions, at least one base must remain in contact with the top person.

Exception: See "Release Moves"

E. Free flipping stunts and transitions are not allowed.

F. No stunt, pyramid, or individual may move over or under another, separate stunt, pyramid, individual or prop.

*Clarification: This pertains to an athlete's torso/head moving over or under the torso/head of another athlete; not the arms or legs.*

Example: A shoulder sit walking under a prep is illegal.

Exception 1: An individual may jump over another individual.

Exception 2: An individual may move under a stunt, or a stunt may move over an individual.

G. Single based split catches are not allowed.

H. Single based stunts with multiple top persons require a separate spotter for each top person. Extended single leg top persons may not connect to any other extended single leg top person.

I. L4 Stunts-Release Moves

1. Release moves are allowed but must not exceed extended arm level.

*Clarification: If the release move passes above the bases' extended arm level, it will be considered a toss and/or dismount, and must follow the appropriate "Toss" and/or "Dismount" rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person's legs, it will be considered a toss or dismount and must follow the appropriate "Toss" or "Dismount" rules.*

2. Release moves may not land in an inverted position. When performing a release move from an inverted position to a non-inverted position, the bottom of the dip will be used to determine if the initial position was inverted. Release moves from inverted to non-inverted positions may not twist.

Release moves from inverted to non-inverted positions landing at prep level or higher must have a spot.

3. Release skills that land in a non-upright position must have 3 catchers for a multi-based stunt and 2 catchers for a single based stunt.

4. Release moves must return to original bases.

*Clarification: An individual may not land on the performing surface without assistance.*

Exception: See L4 Dismount "C".

Exception: Dismounting single based stunts with multiple top persons.

5. Release moves that land in extended position must originate from waist level or below and may not involve twisting or flipping.

6. Release moves initiating from an extended level may not twist.

7. Helicopters are allowed up to a 180 degree rotation and zero twisting and must be caught by at least 3 catchers, one of which is positioned at head and shoulder area of the top.

8. Release moves may not intentionally travel.

9. Release moves may not pass over, under or through other stunts, pyramids, individuals or props.

**10.** Top persons in separate release moves may not come in contact with each other.

Exception: Dismounting single based stunts with multiple top persons.

**J.** L4 Stunts-Inversions

**1.** Extended inverted stunts allowed. Also, see "Stunts" and "Pyramids."

**2.** Downward inversions are allowed at prep level and must be assisted by at least three catchers, at least two of which are positioned to protect the head and shoulder area.

Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed **if initiated from an extended inverted stunt (does not include passing thru extended).**

*Clarification 1: The stunt may not pass above prep level and then become inverted at prep level or below. (The momentum of the top person coming down is the primary safety concern.)*

*Clarification 2: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area.*

*Clarification 3: Downward inversions that do not pass above waist level do not require three bases.*

Exception: Two leg "Pancake" stunts must start at shoulder level or below and are allowed to immediately pass through the extended position during the skill.

*Clarification 4: Two Leg Pancakes cannot stop or land inverted.*

**3.** Downward inversions must maintain contact with an original base.

Exception: Side rotating downward inversions

Example: In cartwheel-style transitions, the original base may lose contact with the top person when it becomes necessary to do so.

**4.** Downward inversions may not come in contact with each other.

**K.** Bases may not support any weight of a top person while that base is in a backbend or inverted position.

*Clarification: A person standing on the ground is not considered a top person.*

## **LEVEL 4 PYRAMIDS**

**A.** Pyramids must follow Level 4 "Stunts" and "Dismounts" rules and are allowed up to 2 high.

Exception: Twisting stunts and transitions to extended skills are allowed up to 1 ½ twist, if connected to a bracer at prep level or below. The connection must be made prior to the initiation of the skill and must remain in contact throughout the skill or transition.

**1.** Single based or assisted single based EXTENDED stunts are not allowed in Youth divisions.

*Clarification: Single based or assisted single based stunts may immediately pass through an extended position.*

**B.** Top persons must receive primary support from a base.

Exception: See L4 Pyramid Release Moves.

**C.** Extended single leg stunts may not brace or be braced by any other single leg extended stunts.

**D.** No stunt or pyramid may move over or under another separate stunt or pyramid.

*Clarification: A top person may not invert over or under the torso/head of another top person regardless if the stunt or pyramid is separate or not.*

Example: shoulder sits walking under a prep

Exception 1: An individual may jump over another individual.

Exception 2: An individual may move under a stunt, or a stunt may move over an individual.

**E.** Any skill legal as a L4 Pyramid Release Move is also legal if it remains connected to a base and a bracer (or two bracers when required).

Example 1: An extended pancake would be required to remain connected to two bracers.

**F.** L4 Pyramids-Release Moves

**1.** During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least one person at prep level or below. Contact must be maintained with the same bracer(s) throughout entire transition.

*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*

Exception: While a tic-tock from prep level or higher to an extended position (low to high and high to high) is illegal in stunts for L4, the same skill is legal in L4 Pyramid Release Moves if it is braced by at least one person at prep level or below. The top person performing the tic-tock must be braced the entire time he/she is released from the bases.

*Clarification: Level 4 Pyramid Release Moves may incorporate stunt release moves that maintain contact with one other top person provided the Release move meet the criteria established under L4 Stunt Release Moves or L4 Dismounts.*

*Clarification: Twisting stunts and transitions are allowed up to 1 ½ twists, if connected to at least one bracer at prep level or below.*

2. In a pyramid transition, a top person may travel over another top person while connected to that top person at prep level or below.
3. Primary weight may not be borne at second level.  
*Clarification: The transition must be continuous.*
4. Non-inverted transitional pyramids may involve changing bases.
  - a. The top person must maintain physical contact with a person at prep level or below.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
  - b. The top person must be caught by at least 2 catchers (minimum of one catcher and one spotter). Both catchers must be stationary and may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
5. Non-inverted pyramid release moves must be caught by at least 2 catchers (minimum of one catcher and one spotter).
  - a. Both catchers must be stationary.
  - b. Both catchers must maintain visual contact with the top person throughout the entire transition.
6. Release moves may not be braced/connected to top persons above prep level.

#### **G. L4 Pyramids-Inversions**

1. Must follow L4 Stunt Inversions rules.

#### **H. L4 Pyramids-Release Moves w/ Braced Inversions**

1. Pyramid transitions may involve braced inversions (including braced flips) while released from the bases if contact is maintained with at least 2 persons at prep level or below. Contact must be maintained with the same bracers throughout entire transition.

*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracers is lost.*

*Clarification: Braced flips must be braced on two separate sides (i.e. right side-left side, left side -back side, etc.) by two separate bracers. (Example: two bracers on the same arm will no longer be permitted) A top person must be braced on 2 of the 4 sides (front, back, right, left) of her/his body.*

2. Braced inversions (including braced flips) are allowed up to 1-¼ flipping rotations, 0 twisting rotations.
3. Braced inversions (including braced flips) may not involve changing bases.
4. Braced inversions (including braced flips) must be in continuous movement.
5. All braced inversions (including braced flips) must be caught by at least 3 catchers  
Exception: Braced flips that land in an upright position at prep level or above must have a minimum of one catcher and two spotters.
  - a. All required catchers/spotters must be stationary
  - b. All required catchers/spotters must maintain visual contact with the top person throughout the entire transition.
  - c. The required catchers/spotters may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
6. Braced inversions (including braced flips) may not travel downward while inverted.
7. Braced inversions (including braced flips) may not come in contact with other stunt/pyramid release moves.
8. Braced inversions (including braced flips) may not be braced/connected to top persons above prep level.

## **LEVEL 4 DISMOUNTS**

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- A. Cradles from single based stunts must have a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- B. Cradles from multi-based stunts must have two catchers and a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- C. Dismounts must return to original base(s).

Exception: dismounts to the performing surface must be assisted by either an original base and/or spotter.  
Exception: straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface without assistance.

*Clarification: An individual may not land on the performing surface from above waist level without assistance.*

- D.** Up to a 2- $\frac{1}{4}$  twisting rotations allowed from all two leg stunts.  
*Clarification: Twisting from a platform position may not exceed 1- $\frac{1}{4}$  rotation. Platform is not considered a two leg stunt. There are specific exceptions given for the platform body position at Level 4 Stunts Twisting Stunts and Transitions only.*
- E.** Up to a 1- $\frac{1}{4}$  twisting rotation allowed from all single leg stunts.  
*Clarification: Platform is not considered a two leg stunt. There are specific exceptions given for the platform body position at Level 4 Stunts Twisting Stunts and Transitions only.*
- F.** No stunt, pyramid, individual, or prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- G.** During a cradle that exceeds 1- $\frac{1}{4}$  twists, no skill other than the twist is allowed.
- H.** No free flipping dismounts allowed.
- I.** Dismounts may not intentionally travel.
- J.** Top persons in dismounts may not come in contact with each other while released from the bases.
- K.** Tension drops/rolls of any kind are not allowed.
- L.** When cradling single based stunts with multiple top persons 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of the dismount.
- M.** Dismounts from an inverted position may not twist.

## **LEVEL 4 TOSSES**

- A.** Tosses are allowed up to a total of 4 tossing bases. One base must be behind the top person during the toss and may assist the top person into the toss.
- B.** Tosses must be performed with all bases having their feet on the performing surface and must land in a cradle position. Top person must be caught in a cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person. Bases must remain stationary during the toss.  
Example: No intentional traveling tosses.  
Exception: A  $\frac{1}{2}$  turn is allowed by bases as in a kick full basket.
- C.** The top person in a toss must have both feet in/on hands of bases when the toss is initiated.
- D.** Flipping, inverted or traveling tosses are not allowed.
- E.** No stunt, pyramid, individual, or prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F.** Up to 2 tricks allowed during a toss.  
Example: Kick full, full up toe touch.
- G.** During a toss that exceeds 1- $\frac{1}{2}$  twisting rotations, no skill other than the twist is allowed.  
Example: No kick double tosses.
- H.** Tosses may not exceed 2- $\frac{1}{4}$  twisting rotations.
- I.** Top persons in separate tosses may not come in contact with each other and must become free of all contact from bases, bracers and/or other top persons.
- J.** Only a single top person is allowed during a toss.

# YOUTH LEVEL 5 RULES

## YOUTH LEVEL 5 GENERAL TUMBLING

- A.** All tumbling must originate from and land on the performing surface.  
*Clarification: A tumbler may rebound from his/her feet into a stunt transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.*  
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
- B.** Tumbling over, under, or through a stunt, individual, or prop, is not allowed.  
*Clarification: Tumbling over/under an athlete's body (including arms and/or legs) is not allowed.*  
*Clarification: An individual may jump (rebound) over another individual.*
- C.** Tumbling while holding or in contact with any prop is not allowed.
- D.** Dive rolls are allowed:  
Exception: Dive rolls performed in a swan/arched position are not allowed.  
Exception: Dive rolls that involve twisting are not allowed.
- E.** Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump is included in a tumbling pass, the jump will break up the pass.

## YOUTH LEVEL 5 STANDING TUMBLING

- A.** Tumbling skills are allowed up to 1 flipping and 0 twisting rotations.

## YOUTH LEVEL 5 RUNNING TUMBLING

- A.** Tumbling skills are allowed up to 1 flipping and 1 twisting rotation.
- 1.** Twisting skills may ONLY be performed if immediately preceded by a round off or back handspring(s). During a full-twisting tumbling skill, no trick other than the twist is allowed (including but not limited to: split fulls, hitch kick fulls, X-Fulls, Full-Xouts) and both feet must land and finish on the performing surface (i.e. no full twisting tumbling to seat, prone body landings or similar).  
*Clarification: All skills up to a full twist are also allowed. (example: half twists and Arabians) Additional tumbling skills may be performed prior to the round-off and/or back handspring(s).*
- 2.** No tumbling is allowed after the twisting skill.  
*Clarification: If any tumbling follows a twisting skill at least one step into the next tumbling skill must be included to separate the two passes. Stepping out of a twisting skill (i.e. Arabian) is considered a continuation of the same tumbling pass. An athlete must take an additional step out of a twisting skill step out. However, if the athlete finishes the twisting skill with both feet together, then one step is all that is needed to create a new tumbling pass.*

## YOUTH LEVEL 5 STUNTS

- A.** Spotters
- 1.** A spotter is required for each top person above prep level.
- B.** Stunt Levels
- 1.** Single leg extended stunts are allowed.
- 2.** Single based or assisted single based EXTENDED stunts are not allowed in Youth divisions.  
*Clarification: Single based or assisted single based stunts may immediately pass through an extended position.*
- C.** Twisting Stunts and Transitions
- 1.** Twisting stunts and transitions are allowed up to 2 ¼ twisting rotations by the top person in relation to the performing surface.  
*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 2 ¼ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt*

*is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*

2. Twisting stunts and transitions are allowed up to a maximum of 1 ½ twisting rotations by the top person in relation to the performing surface when landing in an EXTENDED 2 leg position and 1 twisting rotation by the top person in relation to the performing surface to an EXTENDED 1 leg position. (1 ¼ twisting to an extended single leg stunt is not allowed.)

*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 1 ½ rotations when landing in an extended 2 leg position or 1 twisting rotation to an extended 1 leg position. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*

**D.** Free flipping stunts and transitions are not allowed.

**E.** Single based split catches are not allowed.

**F.** Single based stunts with multiple top persons require a separate spotter for each top person.

**G.** YL5 Stunts-Release Moves

1. Release moves are allowed but must not exceed more than eighteen inches above extended arm level.

Example: tic-tocks are allowed.

*Clarification: If the release move exceeds more than 18 inches above the bases' extended arm level, it will be considered a toss and/or dismount, and must follow the appropriate "Toss" and/or "Dismount" rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person's legs plus an additional 18 inches, it will be considered a toss or dismount and must follow the appropriate "Toss" or "Dismount" rules.*

2. Release moves may not land in an inverted position. When performing a release move from an inverted position to a non-inverted position, the bottom of the dip will be used to determine if the initial position was inverted. Release moves from inverted to non-inverted positions may not twist. Release moves from inverted to non-inverted positions landing at prep level or higher must have a spot.
3. Release skills that land in a non-upright position must have 3 catchers for a multi-based stunt and 2 catchers for a single based stunt.
4. Release moves must return to original bases.  
*Clarification: An individual may not land on the performing surface without assistance.*  
Exception: See Y5 Dismount "C".  
Exception: Dismounting single based stunts with multiple top persons.
5. Helicopters are allowed up to a 180 degree rotation and must be caught by at least 3 catchers, one of which is positioned at head and shoulder area of the top person.
6. Release moves may not intentionally travel.
7. Release moves may not pass over, under or through other stunts, pyramids, individuals or props.
8. Top persons in separate release moves may not come in contact with each other.  
Exception: Dismounting single based stunts with multiple top persons.

**H.** YL5 Stunts-Inversions

1. Extended inverted stunts allowed. Also, see "Stunts" and "Pyramids."
2. Downward inversions are allowed from above prep level and must be assisted by at least three catchers, at least two of which are positioned to protect the head and shoulder area. Contact must be initiated at the shoulder level (or above) of the bases.  
*Clarification: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area.*  
*Clarification: Downward inversions originating from prep level or below do not require three catchers. If the stunt begins at prep level or below and passes above prep level it requires three catchers. (The momentum of the top person coming down is the primary safety concern.)*  
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed if initiated from an extended inverted stunt (does not include passing thru extended).
3. Downward inversions must maintain contact with an original base.  
Exception: The original base may lose contact with the top person when it becomes necessary to do so.  
Example: cartwheel-style transition dismounts
4. Downward inversions from above prep level:

- a. May not stop in an inverted position.  
Example: A cartwheel roll off would be legal because the top person is landing on their feet.  
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed **if initiated from an extended inverted stunt (does not include passing thru extended)**.
  - b. May not land on or touch the ground while inverted.  
*Clarification: Prone or supine landings from an extended stunt must visibly stop in a non-inverted position and be held before any inversion to the ground.*
5. Downward inversions may not come in contact with each other.
- I. Bases may not support any weight of a top person while that base is in a backbend or inverted position.  
*Clarification: A person standing on the ground is not considered a top person.*

## YOUTH LEVEL 5 PYRAMIDS

- A. Pyramids must follow Youth Level 5 "Stunts" and "Dismounts" rules and are allowed up to 2 high.  
Exception: Twisting stunts and transitions to extended skills are allowed up to 2 ¼ twist, if connected to a bracer at prep level or below. The connection must be made prior to the initiation of the skill and must remain in contact throughout the skill or transition.
- 1. Single based or assisted single based EXTENDED stunts are not allowed in Youth divisions.  
*Clarification: Single based or assisted single based stunts may immediately pass through an extended position.*
- B. Top persons must receive primary support from a base.  
Exception: See Y5 Pyramid Release Moves.
- C. YL5 Pyramids-Release Moves
- 1. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least one person at prep level or below. Contact must be maintained with the same bracer throughout entire transition.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*  
*Clarification: Twisting stunts and transitions are allowed up to 2 ¼ twists, if connected to at least one bracer at prep level or below.*
  - 2. Primary weight may not be borne at second level.  
*Clarification: The transition must be continuous.*
  - 3. Non-inverted pyramid release moves must be caught by at least 2 catchers (minimum of one catcher and one spotter).
    - a. Both catchers must be stationary.
    - b. Both catchers must maintain visual contact with the top person throughout the entire transition.
  - 4. Non-inverted transitional pyramids may involve changing bases.
    - a. The top person must maintain physical contact with a person at prep level or below.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
    - b. The top person must be caught by at least 2 catchers (minimum of one catcher and one spotter). Both catchers must be stationary and may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
  - 5. Release moves may not be braced/connected to top persons above prep level.
- D. YL5 Pyramids-Inversions
- 1. Must follow YL5 stunt inversions rules.
- E. YL5 Pyramids-Release moves w/ braced inversions
- 1. Pyramid transitions may involve braced inversions (including braced flips) while released from the bases if contact is maintained with at least 1 person at prep level or below. Contact must be maintained with the same bracer throughout entire transition.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
  - 2. Braced inversions (including braced flips) are limited to up to 1¼ flipping and 0 twisting rotations.
  - 3. Inverted transitional pyramids may involve changing bases.
  - 4. Braced inversions (including braced flips) must be in continuous movement.

5. All braced inversions (including braced flips) must be caught by at least 3 catchers.  
Exception: Braced flips that land in an upright position at prep level or above require a minimum of one catcher and two spotters.  
*Clarification: Single based or assisted single based EXTENDED stunts are not allowed in Youth divisions*
  - a. The 3 catchers/spotters must be stationary.
  - b. The 3 catchers/spotters must maintain visual contact with the top person throughout the entire transition.
  - c. The 3 catchers/spotters may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
6. Braced inversions (including braced flips) may not travel downward while inverted.
7. Braced inversions (including braced flips) may not come in contact with other stunt/pyramid release moves.
8. Braced inversions (including braced flips) may not be braced/connected to top persons above prep level.

## YOUTH LEVEL 5 DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- A. Cradles from single based stunts must have a spotter with at least one hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- B. Cradles from multi-based stunts must have two catchers and a spotter with at least one hand-arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- C. Dismounts must return to original base(s).  
Exception: dismounts to the performing surface must be assisted by either an original base and/or spotter.  
Exception: straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface without assistance.  
*Clarification: An individual may not land on the performing surface from above waist level without assistance.*
- D. Up to a 2-¼ twisting rotations allowed from all stunts.
- E. No stunt, pyramid, individual, or, prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F. No free flipping dismounts allowed.
- G. Dismounts may not intentionally travel.
- H. Top persons in dismounts may not come in contact with each other while released from the bases.
- I. Tension drops/rolls of any kind are not allowed.
- J. When cradling single based stunts with multiple top persons, 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of dismount.
- K. Dismounts from an inverted position may not twist.

## YOUTH LEVEL 5 TOSSES

- A. Tosses are allowed up to a total of 4 tossing bases. One base must be behind the top person during the toss and may assist the top person into the toss.
- B. Tosses must be performed with all bases having their feet on the performing surface and must land in a cradle position. Top person must be caught in a cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person. Bases must remain stationary during the toss.  
*Clarification: no intentional traveling tosses.*  
Exception: A ½ turn is allowed by bases as in a kick full basket.
- C. The top person in a toss must have both feet in/on hands of bases when the toss is initiated.
- D. Flipping, inverted or traveling tosses are not allowed.
- E. No stunt, pyramid, individual, or prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F. Tosses may not exceed three tricks (i.e. hitch kick full, switch kick full).
- G. Tosses that involve more than 1 1/2 twist may not involve an additional skill (i.e. kick doubles are not allowed).
- H. Up to 2-½ twisting rotations allowed.
- I. Top persons in separate basket tosses may not come in contact with each other and must become free of all contact from bases, bracers and/or other top persons.
- J. Only a single top person is allowed during a basket toss.

# **JUNIOR/SENIOR RESTRICTED LEVEL 5 RULES**

***The following skill restrictions only apply for JR/SR RESTRICTED LEVEL 5 divisions:***

## **JR/SR RESTRICTED LEVEL 5 GENERAL TUMBLING**

- A.** All tumbling must originate from and land on the performing surface.  
*Clarification: A tumbler may rebound from his/her feet into a stunt transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.*  
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
- B.** Tumbling over, under, or through a stunt, individual, or prop, is not allowed.  
*Clarification: Tumbling over/under an athlete's body (including arms and/or legs) is not allowed.*  
*Clarification: An individual may jump (rebound) over another individual.*
- C.** Tumbling while holding or in contact with any prop is not allowed.
- D.** Dive rolls are allowed:  
Exception: Dive rolls that involve twisting are not allowed.
- E.** Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump is included in a tumbling pass, the jump will break up the pass.

## **JR/SR RESTRICTED LEVEL 5 STANDING TUMBLING**

- A.** Tumbling skills are allowed up to 1 flipping and 0 twisting rotations.

## **JR/SR RESTRICTED LEVEL 5 RUNNING TUMBLING**

- A.** Tumbling skills are allowed up to 1 flipping and 1 twisting rotation.
- 1.** Twisting skills may ONLY be performed if immediately preceded by a round off or back handspring(s). During a full-twisting tumbling skill, no trick other than the twist is allowed (including but not limited to: split fulls, hitch kick fulls, X-Fulls, Full-Xouts) and both feet must land and finish on the performing surface (i.e. no full twisting tumbling to seat, prone body landings or similar).  
*Clarification: All skills up to a full twist are also allowed. (example: half twists and Arabians) Additional tumbling skills may be performed prior to the round-off and/or back handspring(s).*  
Exception: Simultaneous front flipping and twisting may be performed if executed from a running entry or from a front handspring and does not exceed 1 twisting rotation.  
(ie. Front Baranis, front full up to one twist with no additional skills are legal)
- 2.** No tumbling is allowed after the twisting skill.  
*Clarification: If any tumbling follows a twisting skill at least one step into the next tumbling skill must be included to separate the two passes. Stepping out of a twisting skill (i.e. Arabian) is considered a continuation of the same tumbling pass. An athlete must take an additional step out of a twisting skill step out. However, if the athlete finishes the twisting skill with both feet together, then one step is all that is needed to create a new tumbling pass.*

## **JR/SR RESTRICTED LEVEL 5 STUNTS**

- A.** Spotters
- 1.** A spotter is required for each top person above prep level.
- B.** Stunt Levels
- 1.** Single leg extended stunts are allowed.
- C.** Twisting Stunts and Transitions
- 1.** Twisting stunts and transitions are allowed up to 2 ¼ twisting rotations by the top person in relation to the performing surface.  
*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 2 ¼ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt*

*is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*

2. Twisting stunts and transitions are allowed up to a maximum of 1 ½ twisting rotations by the top person in relation to the performing surface when landing in an EXTENDED 2 leg position and 1 twisting rotation by the top person in relation to the performing surface to an EXTENDED 1 leg position. (1 ¼ twisting to an extended single leg stunt is not allowed.)

*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 1½ rotations when landing in an extended 2 leg position or 1 twisting rotation to an extended 1 leg position. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*

**D.** Free flipping stunts and transitions are not allowed.

**E.** Single based split catches are not allowed.

**F.** Single based stunts with multiple top persons require a separate spotter for each top person.

**G.** Jr/Sr5R Stunts-Release Moves

1. Release moves are allowed but must not exceed more than eighteen inches above extended arm level.

Example: tic-tocks are allowed.

*Clarification: If the release move exceeds more than 18 inches above the bases' extended arm level, it will be considered a toss and/or dismount, and must follow the appropriate "Toss" and/or "Dismount" rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person's legs plus an additional 18 inches, it will be considered a toss or dismount and must follow the appropriate "Toss" or "Dismount" rules.*

2. Release moves may not land in an inverted position. When performing a release move from an inverted position to a non-inverted position, the bottom of the dip will be used to determine if the initial position was inverted. Release moves from inverted to non-inverted positions may not twist. Release moves from inverted to non-inverted positions landing at prep level or higher must have a spot.
3. Release skills that land in a non-upright position must have 3 catchers for a multi-based stunt and 2 catchers for a single based stunt.
4. Release moves must return to original bases.  
*Clarification: An individual may not land on the performing surface without assistance.*  
Exception: See Jr/Sr5R Dismount "C".  
Exception: Dismounting single based stunts with multiple top persons.
5. Helicopters are allowed up to a 180 degree rotation and must be caught by at least 3 catchers, one of which is positioned at head and shoulder area of the top person.
6. Release moves may not intentionally travel.
7. Release moves may not pass over, under or through other stunts, pyramids, individuals or props.
8. Top persons in separate release moves may not come in contact with each other.  
Exception: Dismounting single based stunts with multiple top persons.

**H.** Jr/Sr5R Stunts-Inversions

1. Extended inverted stunts allowed. Also, see "Stunts" and "Pyramids."
2. Downward inversions are allowed from above prep level and must be assisted by at least three catchers, at least two of which are positioned to protect the head and shoulder area. Contact must be initiated at the shoulder level (or above) of the bases.  
*Clarification: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area.*  
*Clarification: Downward inversions originating from prep level or below do not require three catchers. If the stunt begins at prep level or below and passes above prep level it requires three catchers. (The momentum of the top person coming down is the primary safety concern.)*  
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed if initiated from an extended inverted stunt (does not include passing thru extended).
3. Downward inversions must maintain contact with an original base.  
Exception: The original base may lose contact with the top person when it becomes necessary to do so.  
Example: cartwheel-style transition dismounts.
4. Downward inversions from above prep level:

- a. May not stop in an inverted position.  
Example: a cartwheel roll off would be legal because the top person is landing on their feet.  
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed **if initiated from an extended inverted stunt (does not include passing thru extended)**.
  - b. May not land on or touch the ground while inverted.  
*Clarification: Prone or supine landings from an extended stunt must visibly stop in a non-inverted position and be held before any inversion to the ground.*
5. Downward inversions may not come in contact with each other.
- I. Bases may not support any weight of a top person while that base is in a backbend or inverted position.  
*Clarification: A person standing on the ground is not considered a top person.*

## JR/SR RESTRICTED LEVEL 5 PYRAMIDS

- A. Pyramids must follow Level Jr/Sr5R "Stunts" and "Dismounts" rules and are allowed up to 2 high.  
Exception: Twisting stunts and transitions to extended skills are allowed up to 2 ¼ twist, if connected to a bracer at prep level or below. The connection must be made prior to the initiation of the skill and must remain in contact throughout the skill or transition.
- B. Top persons must receive primary support from a base.  
Exception: See Jr/Sr5R Pyramid Release Moves.
- C. Jr/Sr5R Pyramids-Release Moves
- 1. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least one person at prep level or below. Contact must be maintained with the same bracer throughout entire transition.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*  
*Clarification: Twisting stunts and transitions are allowed up to 2 ¼ twists, if connected to at least one bracer at prep level or below.*
  - 2. Primary weight may not be borne at second level.  
*Clarification: The transition must be continuous.*
  - 3. Non-inverted pyramid release moves must be caught by at least 2 catchers (minimum of one catcher and one spotter).
    - a. Both catchers must be stationary.
    - b. Both catchers must maintain visual contact with the top person throughout the entire transition.
  - 4. Non inverted transitional pyramids may involve changing bases.
    - a. The top person must maintain physical contact with a person at prep level or below.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
    - b. The top person must be caught by at least 2 catchers (minimum of one catcher and one spotter). Both catchers must be stationary and may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
  - 5. Release moves may not be braced/connected to top persons above prep level.
- D. Jr/Sr5R Pyramids-Inversions
- 1. Must follow Jr/Sr5R stunt inversions rules.
- E. Jr/Sr5R Pyramids-Release moves w/ braced inversions
- 1. Pyramid transitions may involve braced inversions (including braced flips) while released from the bases if contact is maintained with at least 1 person at prep level or below. Contact must be maintained with the same bracer throughout entire transition.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
  - 2. Braced inversions (including braced flips) are limited to up to 1¼ flipping and 0 twisting rotations.
  - 3. Inverted transitional pyramids may involve changing bases.
  - 4. Braced inversions (including braced flips) must be in continuous movement.
  - 5. All braced inversions (including braced flips) must be caught by at least 3 catchers.  
Exception: Brace flips that land in an upright position at prep level or above require a minimum of one catcher and two spotters.
    - a. The 3 catchers/spotters must be stationary.

- b. The 3 catchers/spotters must maintain visual contact with the top person throughout the entire transition.
- c. The 3 catchers/spotters may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
- 6. Braced inversions (including braced flips) may not travel downward while inverted.
- 7. Braced inversions (including braced flips) may not come in contact with other stunt/pyramid release moves.
- 8. Braced inversions (including braced flips) may not be braced/connected to top persons above prep level.

## JR/SR RESTRICTED LEVEL 5 DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- A. Cradles from single based stunts must have a spotter with at least one hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- B. Cradles from multi-based stunts must have two catchers and a spotter with at least one hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- C. Dismounts must return to original base(s).  
Exception: dismounts to the performing surface must be assisted by either an original base and/or spotter.  
Exception: straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface without assistance.  
*Clarification: An individual may not land on the performing surface from above waist level without assistance.*
- D. Up to a 2-¼ twisting rotations allowed from all stunts.
- E. No stunt, pyramid, individual, or prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F. No free flipping dismounts allowed.
- G. Dismounts may not intentionally travel.
- H. Top persons in dismounts may not come in contact with each other while released from the bases.
- I. Tension drops/rolls of any kind are not allowed.
- J. When cradling single based stunts with multiple top persons, 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of the dismount.
- K. Dismounts from an inverted position may not twist.

## JR/SR RESTRICTED LEVEL 5 TOSSES

- A. Tosses are allowed up to a total of 4 tossing bases. One base must be behind the top person during the toss and may assist the top person into the toss.
- B. Tosses must be performed with all bases having their feet on the performing surface and must land in a cradle position. Top person must be caught in a cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person. Bases must remain stationary during the toss.  
*Clarification: no intentional traveling tosses*  
Exception: A ½ turn is allowed by bases as in a kick full basket.
- C. The top person in a toss must have both feet in/on hands of bases when the toss is initiated.
- D. Flipping, inverted or traveling tosses are not allowed.
- E. No stunt, pyramid, individual, or prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F. Tosses may not exceed three tricks (i.e. hitch kick full, switch kick full, kick double).
- G. Up to 2-½ twisting rotations allowed.
- H. Top persons in separate basket tosses may not come in contact with each other and must become free of all contact from bases, bracers and/or other top persons.
- I. Only a single top person is allowed during a basket toss.

# **LEVEL 5 RULES**

## **LEVEL 5 GENERAL TUMBLING**

- A.** All tumbling must originate from and land on the performing surface.  
*Clarification: A tumbler may rebound from his/her feet into a stunt transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.*  
Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
- B.** Tumbling over, under, or through a stunt, individual, or prop, is not allowed.  
*Clarification: Tumbling over/under an athlete's body (including arms and/or legs) is not allowed.*  
*Clarification: An individual may jump (rebound) over another individual.*
- C.** Tumbling while holding or in contact with any prop is not allowed.
- D.** Dive rolls are allowed:  
Exception: Dive rolls that involve twisting are not allowed.
- E.** Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump is included in a tumbling pass, the jump will break up the pass.

## **LEVEL 5 STANDING TUMBLING**

- A.** Skills are allowed up to 1 flipping and 2 twisting rotations.
- B.** Tumbling skills involving flipping and twisting immediately into a double twisting tumbling skill are not allowed.
- C.** Twisting skills immediately out of a double twisting tumbling skill are not allowed.
- D.** Skills involving more than one twist (i.e. Double fulls) must be immediately preceded by a minimum of two backward traveling, non-twisting tumbling skills (excludes: back extension rolls and jumps). One of these skills must be a back handspring.  
Example: standing back handspring>whip>whip>double full = Legal  
*Clarification: If the requirements in "D" are met before performing a single full, or an additional double full within the same pass, then only letters A, B and C need to be followed.*  
Example: standing back handspring>back handspring>double full>back handspring>double full=Legal  
Example: standing back handspring>whip>whip>SINGLE full>back handspring>double full=Legal

## **LEVEL 5 RUNNING TUMBLING**

- A.** Skills are allowed up to 1 flipping and 2 twisting rotations.
- B.** Tumbling skills involving flipping and twisting immediately into a double twisting tumbling skill are not allowed.
- C.** Twisting skills immediately out of a double twisting tumbling skill are not allowed.

## **LEVEL 5 STUNTS**

- A.** Spotters
  - 1.** A spotter is required for each top person above prep level.
- B.** Stunt Levels
  - 1.** Single leg extended stunts are allowed.
- C.** Twisting stunts and transitions are allowed up to 2 ¼ twisting rotations by the top person in relation to the performing surface.  
*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 2 ¼ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*
- D.** Free flipping stunts and transitions are not allowed.
- E.** Single based split catches are not allowed.
- F.** Single based stunts with multiple top persons require a separate spotter for each top person

## G. L5 Stunts-Release Moves

1. Release moves are allowed but must not exceed more than eighteen inches above extended arm level.  
*Clarification: If the release move exceeds more than 18 inches above the bases' extended arm level, it will be considered a toss and/or dismount, and must follow the appropriate "Toss" and/or "Dismount" rules. To determine the height of a release move, at the highest point of the release, the distance from the hips to the extended arms of the bases will be used to determine the height of the release. If that distance is greater than the length of the top person's legs plus an additional 18 inches, it will be considered a toss or dismount and must follow the appropriate "Toss" or "Dismount" rules.*
2. Release moves may not land in an inverted position. When performing a release move from an inverted position to a non-inverted position, the bottom of the dip will be used to determine if the initial position was inverted. Release moves from inverted to non-inverted positions may not twist.  
Exception: Front handspring up to a prep level or above stunt may include up to a 1/2 twist.  
Release moves from inverted to non-inverted positions landing at prep level or higher must have a spot.
3. Release skills that land in a non-upright position must have 3 catchers for a multi base stunt and 2 catchers for a single based stunt.
4. Release moves must return to original base(s).  
*Clarification: An individual may not land on the performing surface without assistance.*  
Exception: See L5 Dismount "C".  
Exception: Dismounting single based stunts with multiple top persons.
5. Helicopters are allowed up to a 180 degree rotation and must be caught by at least 3 catchers, one of which is positioned at head and shoulder area of the top person.
6. Release moves may not intentionally travel.
7. Release moves may not pass over, under or through other stunts, pyramids, individuals or props.
8. Top persons in separate release moves may not come in contact with each other.  
Exception: Dismounting single based stunts with multiple top persons.

## H. L5 Stunts-Inversions

1. Extended inverted stunts allowed. Also, see "Stunts" and "Pyramids."
2. Downward inversions are allowed from above prep level and must be assisted by at least three catchers, at least two of which are positioned to protect the head and shoulder area. Contact must be initiated at the shoulder level (or above) of the bases.  
*Clarification: Catchers must make contact with the waist to shoulder region to protect the head and shoulder area.*  
*Clarification: Downward inversions originating from prep level or below do not require three catchers. If the stunt begins at prep level or below and passes above prep level it requires three catchers. (The momentum of the top person coming down is the primary safety concern.)*  
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed if initiated from an extended inverted stunt (does not include passing thru extended).
3. Downward inversions must maintain contact with an original base.  
Exception: The original base may lose contact with the top person when it becomes necessary to do so.  
Example: cartwheel-style transition dismounts
4. Downward inversions from above prep level:
  - a. May not stop in an inverted position.  
Example: A cartwheel roll off would be legal because the top person is landing on their feet.  
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed if initiated from an extended inverted stunt (does not include passing thru extended).
  - b. May not land on or touch the ground while inverted.  
*Clarification: Prone or supine landings from an extended stunt must visibly stop in a non-inverted position and be held before any inversion to the ground.*
5. Downward inversions may not come in contact with each other.

- I. Bases may not support any weight of a top person while that base is in a backbend or inverted position.  
*Clarification: A person standing on the ground is not considered a top person.*

## LEVEL 5 PYRAMIDS

- A.** Pyramids must follow Level 5 "Stunts" and "Dismounts" rules and are allowed up to 2 high.
- B.** Top persons must receive primary support from a base.  
Exception: See L5 Pyramid Release Moves.
- C.** L5 Pyramids-Release Moves
1. During a pyramid transition, a top person may pass above 2 persons high while in direct physical contact with at least one person at prep level or below. Contact must be maintained with the same bracer throughout entire transition.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
  2. Primary weight may not be borne at second level.  
*Clarification: The transition must be continuous.*
  3. Non-inverted pyramid release moves must be caught by at least 2 catchers (minimum of one catcher and one spotter).
    - a. Both catchers must be stationary.
    - b. Both catchers must maintain visual contact with the top person throughout the entire transition.
  4. Non-inverted transitional pyramids may involve changing bases. When changing bases:
    - a. The top person must maintain physical contact with a person at prep level or below.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
    - b. The top person must be caught by at least 2 catchers (minimum of one catcher and one spotter). Both catchers must be stationary and may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
  5. Release moves may not be braced/connected to top persons above prep level.
- D.** L5 Pyramids-Inversions
1. Must follow L5 stunt inversions rules.
- E.** L5 Pyramids-Release moves w/ braced inversions
1. Pyramid transitions may involve braced inversions (including braced flips) while released from the bases if contact is maintained with at least 1 person at prep level or below. Contact must be maintained with the same bracer throughout entire transition.  
*Clarification: Contact must be made with a base on the performing surface BEFORE contact with the bracer(s) is lost.*
  2. Braced inversions (including braced flips) are allowed up to 1-¼ flipping rotations and ½ twisting rotations.
  3. Braced inversions (including braced flips) that exceed ½ twisting rotations are only allowed up to a ¾ flipping rotation provided release is initiated from an upright, non-inverted position, doesn't transition past a horizontal position (i.e. cradle, flat back, prone) and doesn't exceed one twisting rotation.  
*Clarification: LEGAL - An athlete tossed from an upright, non-inverted position (i.e. basket toss or sponge) performing a full twist and a backward ¾ rotation to a prone position while in contact with one bracer.*
  4. Inverted transitional pyramids may involve changing bases.
  5. Braced inversions (including braced flips) must be in continuous movement.
  6. All braced inversions (including braced flips) that do not twist must be caught by at least 3 catchers.  
Exception: Brace flips that land in an upright position at prep level or above require a minimum of one catcher and two spotters.
    - a. The 3 catchers/spotters must be stationary.
    - b. The 3 catchers/spotters must maintain visual contact with the top person throughout the entire transition.
    - c. The 3 catchers/spotters may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
  7. All braced inversions (including braced flips) that twist (including ¼ and higher) must be caught by at least 3 catchers. All three catchers must make contact during the catch.
    - a. The catchers must be stationary.
    - b. The catchers must maintain visual contact with the top person throughout the entire transition.
    - c. The catchers may not be involved with any other skill or choreography when the transition is initiated. (The dip to throw the top person is considered the initiation of the skill.)
  8. Braced inversions (including braced flips) may not travel downward while inverted.
  9. Braced inversions (including braced flips) may not come in contact with other stunt/pyramid release moves.

10. Braced inversions (including braced flips) may not be braced/connected to top persons above prep level.

## LEVEL 5 DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface.

- A. Cradles from single based stunts must have a spotter with at least one hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- B. Cradles from multi-based stunts must have two catchers and a spotter with at least one hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
- C. Dismounts must return to original base(s).  
Exception: dismounts to the performing surface must be assisted by either an original base and/or spotter.  
Exception: straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface without assistance.  
*Clarification: An individual may not land on the performing surface from above waist level without assistance.*
- D. Up to a 2-¼ twisting rotations allowed from all stunts.
- E. No stunt, pyramid, individual, or prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F. No free flipping dismounts allowed.
- G. Dismounts may not intentionally travel.
- H. Top persons in dismounts may not come in contact with each other while released from the bases.
- I. Tension drops/rolls of any kind are not allowed.
- J. When cradling single based stunts with multiple top persons, 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of the dismount.
- K. Dismounts from an inverted position may not twist.

## LEVEL 5 TOSSES

- A. Tosses are allowed up to a total of 4 tossing bases. One base must be behind the top person during the toss and may assist the top person into the toss.
- B. Tosses must be performed with all bases having their feet on the performing surface and must land in a cradle position. Top person must be caught in a cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person. Bases must remain stationary during the toss.  
*Clarification: no intentional traveling tosses*  
Exception: A ½ turn is allowed by bases as in a kick full basket.
- C. The top person in a toss must have both feet in/on hands of bases when the toss is initiated.
- D. Flipping, inverted or traveling tosses are not allowed.
- E. No stunt, pyramid, individual, or prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, pyramids, individuals, or prop.
- F. Up to 2-½ twisting rotations allowed.
- G. Top persons in separate basket tosses may not come in contact with each other and must become free of all contact from bases, bracers and/or other top persons.
- H. Only a single top person is allowed during a basket toss.

# **LEVEL 6 RULES**

## **LEVEL 6 GENERAL TUMBLING**

- A.** All tumbling must originate from and land on the performing surface.  
Exception 1: *A tumbler may rebound from his/her feet into a stunt transition. If the rebound from the tumbling pass involves hip-over-head rotation, then the tumbler/top person must be caught and stopped in a non-inverted position before continuing into the hip-over-head transition or stunt.*  
Exception 2: Round off rewinds and standing single back handspring rewinds are allowed. No tumbling skills prior to the round-off or standing back handspring are permitted.
- B.** Tumbling over, under, or through a stunt, individual, or prop, is not allowed.  
*Clarification: Tumbling over/under an athlete's body (including arms and/or legs) is not allowed.*  
*Clarification: An individual may jump over another individual.*
- C.** Tumbling while holding or in contact with any prop is not allowed.
- D.** Dive rolls are allowed.  
Exception: Dive rolls that involve twisting are not allowed.

## **LEVEL 6 STANDING/RUNNING TUMBLING**

- A.** Skills are allowed up to 1 flipping and 2 twisting rotations.

## **LEVEL 6 STUNTS**

- A.** Spotters  
A spotter is required:
1. During one-arm stunts above prep level, other than cupies or liberties.  
*Clarification: A one-arm heel stretch, arabesque, high torch, scorpions, bow and arrow, etc. require a spotter.*
  2. When the load/transition involves:
    - a. A release move with a twist greater than 360 degrees.
    - b. A release move with an inverted position, landing at prep level or above.
    - c. A free flip.
  3. During stunts in which the top person is in an inverted position above prep level.
  4. When the top person is released from above ground level to a one-arm stunt.
- B.** Stunt Levels  
1. Single leg extended stunts are allowed.
- C.** Twisting stunts and transitions are allowed up to 2 ¼ twisting rotations by the top person in relation to the performing surface.  
*Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be illegal if the resulting cumulative rotation of the top person exceeds 2 ¼ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop with a stationary top person, they may continue to walk the stunt in additional rotation.*
- D.** Rewinds (free flipping) and assisted flipping stunts and transitions are allowed. Rewinds must originate from ground level only and are allowed up to 1 flipping and 1¼ twisting rotations.  
Exception 1: Rewinds to a cradle position are allowed 1¼ flips. All rewinds caught below shoulder level must use 2 catchers. (Example: a rewind that lands in a cradle position)  
Exception 2: Round off rewinds and standing single back handspring rewinds are allowed. No tumbling skills prior to the round-off or standing back handspring are permitted.  
*Clarification: Free flipping stunts and transitions that do not start on the performing surface are not allowed.*  
*Clarification: Toe pitch, leg pitch and similar types of tosses are not allowed in initiating free flipping skills.*
- E.** Single based split catches are not allowed.
- F.** Single based stunts with multiple top persons require a separate spotter for each top person.
- G.** L6 Stunts-Release Moves  
1. Release moves are allowed but must not exceed more than eighteen inches above extended arm level.  
*Clarification: If the release move exceeds more than 18 inches above the bases' extended arm level, it will be considered a toss or dismount, and must follow the appropriate "Toss" or "Dismounts" rules.*

2. Release moves may not land in an inverted position.
3. Release moves must return to original bases.  
Exception 1: Coed style tosses to a new base are allowed if the stunt is thrown by a single base and caught by at least one base and an additional spotter who are not involved in any other skill or choreography when the transitions is initiated.  
Exception 2: Toss single based stunts with multiple top persons are allowed without returning to original base(s). The original base may become a required spotter in toss single based stunts with multiple top persons.  
*Clarification: An individual may not land on the performing surface without assistance from above waist level.*
4. Helicopters are allowed up to a 180 degree rotation must be caught by at least 2 catchers, one of which is positioned at head and shoulder area of the top person.
5. Release moves may not intentionally travel. See exceptions in #3 above.
6. Release moves may not pass over, under or through other stunts, pyramids, individuals or **prop**.
7. Top persons in separate release moves may not come in contact with each other.  
Exception: Single based stunts with multiple top persons.

#### H. L6 Stunts-Inversions

1. Downward inversions from above prep level must be assisted by at least 2 catchers. Top person must maintain contact with a base.  
Exception: A controlled lowering of an extended inverted stunt (example: handstand) to shoulder level is allowed by a single base with a spotter.

### LEVEL 6 PYRAMIDS

- A. Pyramids must follow "Stunts A" spotter rules and are allowed up to 2 ½ high.  
Exception: Tower pyramids are allowed.  
Exception: One arm extended Paper Dolls require a spotter for each top person.
- B. For 2 ½ high pyramids, there must be a spotter in front and back for each person on the top level, and the spotters must be in position the entire time the top person(s) is at the 2 ½ high level(s). Spotters may stand slightly to the side but must remain in a position to adequately spot the top person. Spotters must maintain visual contact with the top person the entire time the top person is at the 2 ½ high level. Spotters may not be a primary support of the pyramid.  
*Clarification: For all tower pyramids, there must be a spotter who is not in contact with the pyramid in place behind the top person. If a bracer is needed to assist the middle layer, they do not fill this role and an additional spotter, who is not in contact with the pyramid, is required.*  
*Clarification: For all 2 ½ high pyramids with horizontal top persons (ie. Flat back, prone and swedish variations):  
Spotters must be on 2 of the 4 sides (front, back, right, left) of the pyramid.  
An athlete on the foot/feet side or leg side will not be considered a spotter.*
- C. Free-flying mounts or transitions originating from ground level are allowed up to 1 flipping and 1 twisting rotation, or 0 flipping and 2 ¼ twisting rotations. Free-flying mounts or transitions originating from above ground level stunts are permitted and are allowed up to 1 flipping and 0 twisting rotation, or up to 0 flipping and 2 twisting rotations.  
*Clarification: Free flying mounts or transitions may not significantly exceed the height of the intended skill and may not pass over, under or through other stunts, pyramids, individuals or prop.*  
*Clarification: Free flying mounts or transitions may not land in an inverted position.*
- D. L6 Pyramids–Release Moves
  1. During a pyramid transition, a top person may pass above 2 ½ high
    - a. Anytime a pyramid release move is released from a second layer base and is caught by a second layer base, the second layer base that is catching the top person must also be the second layer base that originally released that top person. (i.e. tower pyramid tic-tocks)
    - b. Free release moves from 2 ½ high pyramids may not land in a prone or inverted position.
  2. **Release moves may not pass over, under or through a prop.**
- E. L6 Pyramids-Inversions
  1. Inverted skills are allowed up to 2 ½ persons high.
  2. Downward inversions from above prep level must be assisted by at least 2 bases. Top person must maintain contact with a base or another top person.
- F. L6 Pyramids–Release Moves w/ Braced Inversions
  1. Braced inversions (including braced flips) are allowed up to up to 1 ¼ flipping and 1 twisting rotation.

2. Braced inversions (including braced flips) are allowed if direct physical contact is maintained with at least 1 top person at prep level or below and must be caught by at least 2 catchers.  
Exception 1: Braced inversion to 2½ high pyramids may be caught by 1 person.
  - a. The base/spotter must be stationary.
  - b. The base/spotter must maintain visual contact with the top person throughout the entire transition.
  - c. The base/spotter may not be involved with any other skill or choreography when the transition is initiated.  
(The dip to throw the top person is considered the initiation of the skill.)
3. All braced inversions (including braced flips) that land in an upright position at prep level or above require at least one base and 1 additional spotter.
  - a. The base/spotter must be stationary.
  - b. The base/spotter must maintain visual contact with the top person throughout the entire transition.
  - c. The base/spotter may not be involved with any other skill or choreography when the transition is initiated.  
(The dip to throw the top person is considered the initiation of the skill.)
- G. Free release moves from 2 ½ high pyramids.
  1. May not land in a prone or inverted position.
  2. Are allowed up to 0 flipping and 1 twisting rotation.

## LEVEL 6 DISMOUNTS

Note: Movements are only considered "Dismounts" if released to a cradle or released and assisted to the performing surface"

- A. Single based cradles that exceed 1 ¼ twisting rotations must have a spotter assisting the cradle with at least one hand-arm supporting the head and shoulder of the top person.
- B. Dismounts must return to original base(s).  
Exception: Single based stunts with multiple top persons do not need to return to original base(s).  
Exception: Dismounts to the performing surface must be assisted by either an original base and/or spotter.  
Exception: Straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface without assistance.  
*Clarification: An individual may not land on the performing surface from above waist level without assistance.*
  1. Dismounts to the performing surface are allowed up to 2-1/4 twists.
  2. Dismounts to the performing surface exceeding 1-1/4 twist must be assisted by 2 catchers or 1 catcher with a spotter.  
Exception: Dismounts to the performing surface from 2 1/2 high pyramids are allowed up to 1 1/4 twist and must be assisted by 2 catchers or 1 catcher with a spotter.
- C. Up to a 2 ¼ twist cradle is allowed from all stunts and pyramids up to 2 persons high and requires at least 2 catchers. Cradles from 2 ½ high pyramids are allowed up to 1 ½ twist and require 2 catchers, 1 of which must be stationary at the initiation of the cradle.  
Exception: 2-1-1 tower pyramids may perform 2 twists from a forward facing stunt only (example: extension, liberty, heel stretch).
- D. Free released moves from 2 ½ high pyramids may not land in a prone or inverted position.
- E. Free flipping dismounts to cradle:
  1. Are allowed up to 1 ¼ flipping and 1/2 twisting rotations.
  2. Require at least 2 catchers, one of which is an original base.
  3. May not intentionally travel.
  4. Must originate from prep level. (May not originate from 2 ½ high pyramid.)  
Exception: ¾ front flip to cradle may occur from a 2 ½ high pyramid and requires 2 catchers, 1 on each side of the top person and 1 of which must be stationary when the cradle is initiated, ¾ front flip to cradle from 2 ½ high may not twist.
- F. Free flipping dismounts to the performing surface are only allowed in front flipping rotation:  
Clarification: Back flipping dismounts must go to cradle.
  1. Allowed up to 1 front flipping and 0 twisting rotations.
  2. Must return to an original base.
  3. Must have a spotter.
  4. May not intentionally travel.
  5. Must originate from prep level. (May not originate from 2 ½ high pyramid.)
- G. Tension drops/rolls of any kind are not allowed.

- H. When cradling single based stunts with multiple top persons, 2 catchers must catch each top person. Catchers and bases must be stationary prior to the initiation of the dismount.
- I. Cradles from a 1 arm stunt that involve a twist must have a spotter assisting the cradle with at least one hand-arm supporting the head and shoulder of the top person.
- J. Dismounts may not pass over, under or through other stunts, pyramids, individuals or prop.
- K. Dismounts may not intentionally travel.
- L. Top persons in dismounts may not come in contact with each other while released from the bases.

## LEVEL 6 TOSSES

- A. Tosses are allowed up to a total of 4 tossing bases. One base must be behind the top person during the toss and may assist the top person into the toss.  
Exception 1: When tossing from one set of bases to another set of bases/catchers  
Exception 2: Arabians in which the 3rd person would need to start in front to be in a position to catch the head and shoulder area of the top person during the cradle.
- B. Tosses must be performed from ground level and must land in a cradle position. Top person must be caught in a cradle position by at least 3 bases one of which is positioned at the head and shoulder area of the top person. Tosses may not be directed so that the bases must move to catch the top person.
- C. The top person in a toss must have both feet in/on hands of bases when the toss is initiated.
- D. Flipping tosses are allowed up to 1 ¼ flipping rotation and 2 additional skills. A tuck, pike or lay out are not counted in the 2 additional skills. A pike open double full is legal. A tuck X-out double full is illegal because the X-out is considered a skill.
- E. No stunt, pyramid, individual, or, prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, pyramids, individuals, or props.
- F. Non-flipping tosses may not exceed 3 ½ twists.
- G. Top persons tossed to another set of bases must be thrown by 3 or 4 bases and must be caught in a cradle position by at least 3 stationary catchers. Catchers may not be involved in any other choreography and must have visual contact with top person when the toss is initiated and must maintain visual contact throughout the entire toss. The toss is allowed up to 0 flipping and 1 ½ twisting rotations or ¾ front flips with 0 twists. The bases involved in the toss must be stationary while tossing.
- H. Top persons in separate tosses may not come in contact with each other and must become free of all contact from bases, bracers and/or other top persons.
- I. Only a single top person is allowed during a basket toss.

## ALL STAR PREP

### Level/Safety Rule Differences from All Star **Elite** (Traditional All Star)

- A. Routines may not exceed 2:00 minutes
- B. **No Tosses** permitted  
*Clarification: This includes "Sponge" (also known as Load In or Squish) tosses.*  
*Clarification: All waist level cradles are illegal.*
- C. Performances may be performed on spring floor or carpet bonded foam.
- D. All Star Prep can be offered at both 1 and 2 day events. **HOWEVER, if offered at 2-day events, Prep divisions will perform ONE TIME ONLY.**

## ALL STAR NOVICE

### Level/Safety Rule Differences from All Star **Elite** (Traditional All Star)

- A. Routines may not exceed **1:30** minute
- B. **No Tosses** permitted  
*Clarification: This includes "Sponge" (also known as Load In or Squish) tosses.*  
*Clarification: All waist level cradles are illegal.*
- C. Performances may be performed on spring floor or carpet bonded foam.
- D. Novice can be offered at both 1 and 2 day events. **HOWEVER, if offered at 2-day events, Novice divisions will perform ONE TIME ONLY.**
- E. Teams will be evaluated on a rating system (Outstanding, Excellent, Superior) only and not scored against other teams.
- F. Tumbling skills are allowed and will follow the level rules for that level but will not be rated/required.  
**Tiny Novice Only:** No Building skills permitted (**includes tosses, stunts and pyramids**). The **ONLY TWO TUMBLING** skills allowed are cartwheels and forward rolls. Handstands, backbends/bridges, etc. are not allowed.

## INTERNATIONAL (IASF)

USASF sanctioned events may offer the following IASF divisions.

**Please consult the IASF website for additional rules, restrictions, etc.**

Please note the following:

- A. An athlete must meet the age requirement within the calendar year of 2019.  
EXAMPLE: If a 13-year-old athlete is participating in a division where the minimum age is 14; that athlete is legal for the division if the athlete turns 14 on or before December 31st, 2019.  
EXAMPLE: If a 19-year-old athlete is participating in a division where the maximum age is 18; that athlete would be legal for the division if the athlete was 18 years old at any time in 2019.
- B. **Minimum number of athletes for all divisions is 16. A penalty may be assessed for taking the floor with fewer than 16 athletes.**
- C. **The maximum numbers of males on a Co-Ed Division team may not exceed 2/3 of the total athletes on the team.**
- D. **Routine time limit for IASF Divisions is a maximum of 2:30.**  
Exception: Routine time limit for NON - TUMBLING Divisions is a maximum of 2:00.  
Exception: IASF Global Divisions - Time Limit: 3:30. Cheer = 30 seconds(minimum) 40 second (maximum), 20 seconds to move from cheer to and set for music portion, 2:30 maximum for music portion.
- E. **The USASF member database will calculate the age on December 31, 2019.**
- F. **Background checks are an eligibility requirement for "adult" athletes on U.S. based open teams. "Adults" are athletes who are at least 21 years old as of December 31, 2019.**

## **CheerABILITIES - Exceptional Athletes** **(SPECIAL ATHLETE TEAM)**

- A.** All CheerABILITY TEAMS will follow the general rules and routines requirements.
- B.** Teams may execute skills up to and including Level 2.  
Exception: See letter "D" below.
- C.** ALL Stunts and Pyramids (at prep level or above) performed without a Coach/Assistant require additional spotter that is a coach/assistant
- D.** Tosses are not permitted.  
*Clarification: This includes "Sponge" (also known as Load In or Squish) tosses.*  
*Clarification: All waist level cradles are illegal.*
- E.** Spotted and assisted tumbling is not allowed in the **CheerABILITIES** (competitive) division but is allowed in the **CheerABILITIES** (exhibition) division.
- F.** Up to 3 Coaches/Assistants allowed to signal from the front of the mat and may not obstruct view of the judges. No limit to amount of assistants around perimeter of the floor in a squat position.
- G.** Assistants will be dressed in contrasting t-shirt and jeans or dark pants and sneakers so it is clear to the judges who is the athlete and who is the Assistant. EX: if athlete is in light color uniform top, Assistants will be in a dark matching t-shirt, if athlete is in light uniform top, all Assistants will be in dark colored matching t-shirt. NO FLIP-FLOPS or Jewelry worn by Assistants as to not cause injury. Assistants may not be in any type of cheer uniform.
- H.** **Wheelchair/Walking Devices/Aids**
  - 1. All wheelchairs must be visually locked when using as a base for athletes to stand or put any amount of weight on the chair.
  - 2. Non-motorized wheelchairs
    - a. With or without assistance, must have at least 2 wheels on the floor at all times. Either 2 front or 2 back wheels. Must not tip to side. Tipping backwards or forwards only allowed with aid of tipping device.
    - b. When non-motorized wheelchairs are in motion, if there is an individual pushing the exceptional athlete in the wheelchair, that individual must remain in contact with the wheelchair while it is in motion. The wheelchair MUST NOT be released during motion.
  - 3. Motorized wheelchairs must have all 4 wheels on floor at all times (exception – if assistance is needed to lift back wheels onto cheer floor).
  - 4. Any Assistive Walking Devices/Aids such as canes, crutches or elbow crutches, etc., cannot be used as a prop in any manner. Please send in videos of use of device if in question.
- I.** It is the responsibility of the coach to determine the capability and proficiency of the individuals when choosing the skill to be performed.

# **IMAGE POLICY**

## **Cheer Teams**

Judges reserve the right to assess warnings and/or deductions when a team's choreography, uniform, make up, bows etc. do not meet the standards of 'appropriate' as described in this policy.

## **COVER UP GUIDELINES**

Athletes with non-full top uniforms must wear a t-shirt or other suitable cover up over their uniforms unless they are in the warm-up area, traveling as a group directly to or from the warm up area, or on the performance stage.

## **APPROPRIATE CHOREOGRAPHY**

All facets of a performance/routine, including both choreography and music selection, should be appropriate and suitable for family viewing and listening.

Examples of inappropriate choreography may include, but are not limited to, movements such as hip thrusting and inappropriate touching, gestures, hand/arm movements and signals, slapping, positioning of body parts and positioning to one another. Music or words unsuitable for family listening, which includes, but is not limited, to swearwords and connotations of any type of sexual act or behavior, drugs, explicit mention of specific parts of the body torso, and/or violent acts or behavior are other examples of inappropriate choreography. Removing improper language or words from a song and replacing with sound effects or other words may still constitute 'inappropriate.'

Music or movement in which the appropriateness is questionable or with which uncertainty exists should be assumed by the coach to be inappropriate and removed as to not put their team in an unfortunate situation.

## **MAKEUP AND OTHER**

### **MAKEUP**

Makeup should be uniform and appropriate for both the performance and the age of the athletes. Face/Eyelid Rhinestones are not allowed. False eyelashes are allowed but may not be decorated in rhinestones or additional jewelry.

### **BOWS**

Bows should not be excessive in size (acceptable bows are generally no more than 3" in width) and shouldn't be a distraction to the performance. Bows should be worn in a manner to minimize risk for the participants, should be adequately secured and should not fall over the forehead into the participants' eyes or block the view of the participant while performing.

## **APPROPRIATE UNIFORM**

### **GENERAL UNIFORM GUIDELINES**

No risqué, sexually provocative or lingerie looking or inspired uniform or garments allowed. All uniform pieces should adequately cover an athlete and must be secured to eliminate any possible wardrobe malfunction. Appropriate undergarments must be worn.

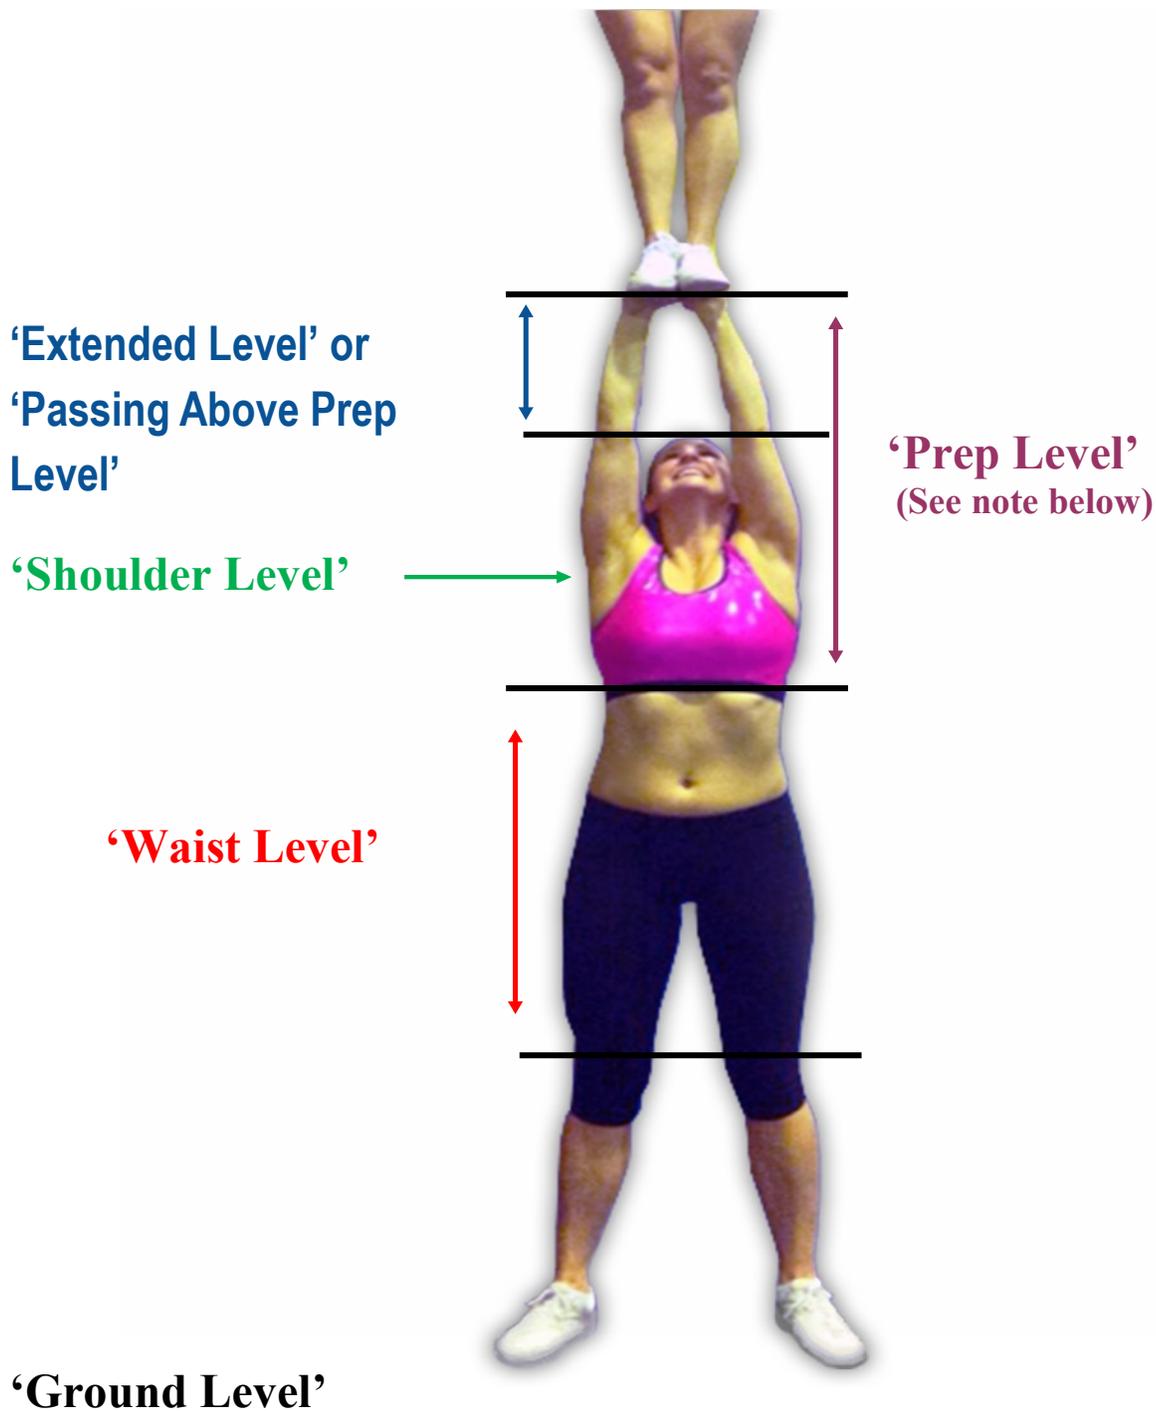

In addition to the below specific guidelines, athletes must also consider that a combination of uniform pieces may also deem a uniform appropriate or inappropriate. ALL garments must properly cover the athlete and the athlete's undergarments during the routine.

### **UNIFORM SKIRT/SHORTS GUIDELINES**

When a skirt is worn as part of the uniform, briefs under the skirt are required. The skirt must fully cover the hips. The skirt must completely cover the briefs and must fall at least 1 inch below briefs (regular and boy cut briefs). When shorts are worn as part of the uniform, there must be a minimum of a 2" inseam.

### **UNIFORM TOP GUIDELINES**

Uniform tops may not include an exposed midriff (including crop tops) except when worn by athletes competing in Senior **or Open** divisions. Uniform tops must be secured by straps or material over at least one shoulder or around the neck (tube tops are not allowed).

**Note:** You must consult the glossary and the rules for further specifications, explanations and restrictions when interpreting the stunt level.

# **CHEER RULES**

## **QUICK REFERENCE**

### **Levels 1-5**

Not all rules/wording are listed in the chart format on the following pages.  
This should be used as a quick reference guide and should not be used in place of the rules.

# TUMBLING

*(Not all rules/wording are listed in this chart format)*

	<b>LEVEL 1</b>	<b>LEVEL 2</b>	<b>LEVEL 3</b>	<b>LEVEL 4</b>	<b>LEVEL 5R/Y5</b>	<b>LEVEL 5</b>
<p><b>GENERAL</b></p> <p>(Must originate and land on performing surface; May rebound from feet into stunt transition; May jump(rebound) over individual.</p> <p>NO rebound to inverted; NO tumbling over, under, through a stunt, individual or prop; NO tumbling while holding/contact with a prop; Jump skill breaks up pass)</p>	<p>May rebound ½ turn to prone</p> <p>NO dive rolls</p>	<p>NO dive rolls in swan/arched position; Dive rolls may not twist</p>	<p>NO dive rolls in swan/arched position; Dive rolls may not twist</p>	<p>NO dive rolls in swan/arched position; Dive rolls may not twist</p>	<p>Dive rolls may not twist</p> <p>Y5 - NO dive rolls in swan/arched position</p>	<p>Dive rolls may not twist</p>
<p><b>STANDING</b></p>	<p>Skills with constant physical contact with the performing surface such as cartwheels, rolls, walkovers, handstands</p> <p>Block cartwheels allowed</p>	<p>Single handspring</p> <p>NO twisting or turning allowed after back handspring step out; NO jump skills in immediate combination with handspring; NO twisting while airborne except round offs</p>	<p>Series handsprings; jump in combination with handspring(s)</p> <p>NO flips allowed; NO twisting while airborne except round offs</p>	<p>Up to 1 flipping and 0 twisting rotation; flips must be performed in tuck position; standing flips and flips from a back handspring entry; aerial cartwheels; onodis</p> <p>NO jump flip; NO tumbling after a flip, aerial cartwheel or onodi</p>	<p>Jump flip</p> <p>Up to 1 flipping and 0 twisting rotation</p>	<p>Up to 1 flipping and 2 twisting rotations; must have minimum of 2 backward traveling, non-twisting skills (one must be back handspring, excludes back extension roll and jump) to double twisting skill</p> <p>NO flipping and twisting into double twisting skill; NO twisting out of double twisting skill.</p>
<p><b>RUNNING</b></p>	<p>Skills with constant physical contact with the performing surface such as cartwheels, rolls, walkovers</p> <p>Block cartwheels and round-offs allowed</p> <p>NO tumbling in immediate combination after round off or round off rebound</p>	<p>Series handsprings</p> <p>NO twisting or turning allowed after back handspring step out; NO twisting while airborne except round offs</p>	<p>Round off or round off back handspring(s) into back tuck; aerial cartwheels; running front tucks; ¾ front flip</p> <p>NO tumbling after a flip or aerial cartwheel; front handspring front tuck is NOT allowed</p>	<p>1 flipping and 0 twisting; aerial cartwheels; onodis</p>	<p>Up to 1 flipping and 1 twisting rotation from a round off, back handspring or front handspring entry.</p> <p>NO tumbling after twisting skill; NO trick allowed during full twisting skills and both feet must land on performing surface</p> <p>YOUTH 5-No front fulls.</p>	<p>Up to 1 flipping and 2 twisting rotations</p> <p>NO flipping and twisting into double twisting skill; NO twisting out of double twisting skill.</p>

# STUNTS-PAGE 1

*(Not all rules/wording are listed in this chart format)*

	<b>LEVEL 1</b>	<b>LEVEL 2</b>	<b>LEVEL 3</b>	<b>LEVEL 4</b>	<b>LEVEL 5R/Y5</b>	<b>LEVEL 5</b>
<b>SPOTTERS</b>	Prep level; floor stunt (may be on waist)  Exception: Shoulder sits, T-lift, stunts to and from performing surface only supported at waist	Above prep level; floor stunt (may be on waist)	Above prep level	Above prep level	Above prep level	Above prep level
<b>STUNT HEIGHT (NO single based or assisted single based extended stunts for Youth and below)</b>	Waist level single leg; Prep level two leg; Prep level single leg requires base, spotter and additional base with hand/arm connection; walk up shoulder stand with both hands of flyer connected to both hands of base  NO passing above prep level; NO single base with multiple top persons	Prep level single leg; Above prep level two leg  NO single base with multiple top persons	Above prep level single leg	Above prep level single leg	Above prep level single leg	Above prep level single leg
<b>TRANSITION</b>	Must remain in contact with at least one base  NO leap frog/leap frog variations	Must remain in contact with at least one base	Must remain in contact with at least one base unless legal as release move	Must remain in contact with at least one base unless legal as release move	See release moves	See release moves
<b>TWISTING</b>	Up to 1/4 Exception: Rebound 1/2 turn to prone; 1/2 wrap around; up to 1/2 if starts and ends on performing surface and only supported at waist	Up to 1/2 twist  Assisted full twisting log roll starts and ends in cradle position	Up to 1 twist originating and landing at prep level or below; 1/2 twist to and from extended position	Up to 1 1/2 twists to prep level or below; 1 twist to above prep level two leg, platform, or liberty; 1/2 twist to extended single leg	Up to 2 1/4 twists to prep level or below; 1 1/2 twists landing in extended two leg; 1 twist to extended single leg	Up to 2 1/4 twists
<b>RELEASE MOVES</b> (Requires 3 catchers for multi-based stunt, and 2 catchers for single based stunt that land in non-upright position; may not land inverted; may not intentionally travel; must return to original base(s); NO free flips; NO single based split catches; may not pass over, under, or through other stunts, pyramids, individuals or props; top persons in separate release moves may not come in contact with each other except for dismounting single based stunts with multiple top persons)	Not allowed other than dismounts	Not allowed other than dismounts, tosses, and full twisting log rolls that start and end in a cradle position	Starts at waist level or below and lands at prep level or below; does not exceed extended arm level; 1 skill and 0 twisting except log rolls (must land in cradle, or flat and horizontal body position)  NO helicopters, NO inverted to non-inverted	Starts at prep level or below; does not exceed extended arm level; helicopters up to 180 degrees with no twisting caught by at least 3 catchers; inverted to non-inverted with 0 twisting; release moves landing at extended must originate at waist level or below with 0 twisting; release moves initiating at extended may not twist	Does not exceed 18 inches above extended arm level; inverted to non-inverted 0 twisting; helicopters up to 180 degrees with at least 3 catchers	Does not exceed 18 inches above extended arm level; inverted to non-inverted 0 twisting; helicopters up to 180 degrees with at least 3 catchers  Exception: Front handspring up to a prep level or above stunt may include up to a 1/2 twist.

## STUNTS-PAGE 2

*(Not all rules/wording are listed in this chart format)*

	<b>LEVEL 1</b>	<b>LEVEL 2</b>	<b>LEVEL 3</b>	<b>LEVEL 4</b>	<b>LEVEL 5R/Y5</b>	<b>LEVEL 5</b>
<b>INVERSIONS</b> (base may not support any weight of top person while base is in backbend or inverted position)	Not allowed (Inverted athlete must maintain contact with performing surface)	Ground level inversions to non-inverted position	May not be above shoulder level (connection with base); limited to ½ twist to extended and 1 twist to prep level or below EXCEPTION: Multi-based suspended rolls (hand/hand connection to cradle, load in, flat body prep level stunt, or performing surface); forward may twist up to one twist (if it exceeds ½, must land in cradle); backwards may not twist	Extended inverted stunts	Extended inverted stunts	Extended inverted stunts
<b>DOWNWARD INVERSIONS</b> (may not come in contact with each other)	Not allowed	Not allowed	Waist level or below; 2 bases/catchers between waist to shoulder region  NO 2 leg pancake style stunts	Prep level with 3 catchers, 2 between waist and shoulder region; controlled lowering of extended inverted stunt to shoulder level if initiated from extended inverted stunt (does not include passing thru extended); two leg pancakes must start at shoulder level and may immediately pass through extended position but cannot land or stop inverted.	Above prep level with 3 catchers, 2 between waist and shoulder region; controlled lowering of extended inverted stunt to shoulder level if initiated from extended inverted stunt (does not include passing thru extended); must maintain contact with an original base (EXCEPTION: may lose contact with top person when becomes necessary to do so such as in cartwheel style transitions)  From above prep level may not land, stop or touch the ground inverted EXCEPTION: controlled lowering of extended inverted stunt to shoulder level)	Above prep level with 3 catchers, 2 between waist and shoulder region; controlled lowering of extended inverted stunt to shoulder level if initiated from extended inverted stunt (does not include passing thru extended); must maintain contact with an original base (EXCEPTION: may lose contact with top person when becomes necessary to do so such as in cartwheel style transitions)  From above prep level may not land, stop or touch the ground inverted EXCEPTION: controlled lowering of extended inverted stunt to shoulder level)
<b>OVER/UNDER</b> (torso/head over torso/head)	Not allowed	Not allowed	Not allowed	Individual under stunt, stunt over an individual	Allowed	Allowed

**PYRAMIDS-PAGE 1** *(Not all rules/wording are listed in this chart format)*

	<b>LEVEL 1</b>	<b>LEVEL 2</b>	<b>LEVEL 3</b>	<b>LEVEL 4</b>	<b>LEVEL 5R/Y5</b>	<b>LEVEL 5</b>
<b>STRUCTURES</b> (NO single based or assisted single based extended stunts for Youth and below; up to 2 high)	Two leg extended connected to prep level or below bracer with hand/arm; Prep level single leg connected to prep level or below bracer  Prep level bracers must have both feet in the bases' hands unless in shoulder sit, flat back, straddle lift or shoulder stand; connection to bracer must be made by initiation and remain connected	Extended single leg connected to prep level or below bracer with hand/arm.  NO extended stunt connected to extended stunt  Prep level bracers must have both feet in the bases' hands unless in shoulder sit, flat back, straddle lift or shoulder stand; connection to bracer must be made by initiation and remain connected.	NO extended single leg connected to extended stunt	NO extended single leg connected to extended single leg		
<b>TWISTING</b> (Not released)	Up to ¼ twist	Up to ½ twist	Up to 1 twist TO extended connected to prep level or below bracer, must be hand/arm connection; must be made prior to initiation and remain in contact throughout the skill	Up to 1 ½ twist connected to prep level or below bracer with connection made prior to initiation and remain in contact throughout skill	Up to 2 ¼ twists connected to prep level or below bracer	Up to 2 ¼ twists
<b>RELEASE TRANSITIONS</b> (Non-inverted) (Primary weight may not be borne at second level; direct physical contact with required bracer(s) throughout the entire transition; required catchers must maintain visual contact with top person throughout the entire transition and may not be involved with any other skill or choreography when the skill is initiated; may not be braced/connected to top person's above prep level)	Not allowed other than dismounts	Not allowed other than tosses and dismounts.	Requires 2 bracers (one of which is hand/arm) at prep level or below and 2 separate sides; 2 stationary catchers; may not change bases	Requires 1 bracer at prep level or below; may change bases; 2 stationary catchers (minimum of 1 catcher and 1 spotter);  Top person may travel over another top person while connected to that top person at prep level or below	Requires 1 bracer at prep level or below; may change bases; 2 stationary catchers (minimum of 1 catcher and 1 spotter)	Requires 1 bracer at prep level or below; may change bases, 2 stationary catchers (minimum of 1 catcher and 1 spotter)
<b>TWISTING</b> (Released)	Not allowed	Not allowed other than dismounts.	Up to 1 twist connected to 2 bracers at prep level or below prior to initiation, both bracers must have hand/arm connection, 2 stationary catchers	Up to 1 ½ twist connected to 1 bracer at prep level or below, 2 stationary catchers (minimum of 1 catcher and 1 spotter)	Up to 2 ¼ twist connected to 1 bracer at prep level or below	Up to 2 ¼ twist

**PYRAMIDS-PAGE 2** *(Not all rules/wording are listed in this chart format)*

	<b>LEVEL 1</b>	<b>LEVEL 2</b>	<b>LEVEL 3</b>	<b>LEVEL 4</b>	<b>LEVEL 5R/Y5</b>	<b>LEVEL 5</b>
<b>INVERSIONS (Not released)</b>	Must follow stunt rules	Must follow stunt rules	Must follow stunt rules.  EXCEPTION: top person must remain in contact with base and bracer at prep level or below throughout transition, must start and end at prep level or below.	Must follow stunt rules	Must follow stunt rules	Must follow stunt rules
<b>RELEASE TRANSITIONS (Braced inversions/flips)</b>  (Primary weight may not be borne at second level; contact maintained with same bracers throughout the transition; required catchers must maintain visual contact with the top person throughout the entire transition and may not be involved with any other skill or choreography when the transition is initiated; may not travel downward while inverted; may not come in contact with other stunt/pyramid release moves; may not be braced/connected to top persons above prep level)	Not allowed	Not allowed	Not allowed	Requires 2 bracers at prep level or below; braced on 2 separate sides; up to 1 ¼ flipping, 0 twisting; must be in continuous movement; 3 stationary catchers; may not involve changing bases  EXCEPTION: braced flips that land in an upright position at prep level or above require a minimum of 1 catcher and 2 spotters	Requires 1 bracer at prep level or below; up to 1 ¼ flipping, 0 twisting; must be in continuous movement; 3 stationary catchers  EXCEPTION: braced flips that land in an upright position at prep level or above require a minimum of 1 catcher and 2 spotters	Requires 1 bracer at prep level or below; up to 1 ¼ flipping and ½ twisting or ¾ flipping and up to 1 twist from upright, non-inverted position, and doesn't transition past horizontal position; 3 stationary catchers  EXCEPTION: braced flips that land in an upright position at prep level or above require a minimum of 1 catcher and 2 spotters
<b>OVER/UNDER (torso/head over torso/head)</b>	Not allowed	Not allowed  Top person may not pass over/under torso/head of another top person	Top person may not pass over/under torso/head of another top person	NO stunt over separate stunt  Top person may not invert over/under torso/head of another top person		

## DISMOUNTS AND TOSSES *(Not all rules/wording are listed in this chart format)*

	<b>LEVEL 1</b>	<b>LEVEL 2</b>	<b>LEVEL 3</b>	<b>LEVEL 4</b>	<b>LEVEL 5R/Y5</b>	<b>LEVEL 5</b>
<b>GENERAL DISMOUNT</b>	Single based cradles require 2 catchers; multi-based cradles require 3 catchers; dismounts from prep level to performance surface require assistance from original base/spotter (EXCEPTION: when cradling single based stunts with multiple top persons, 2 catchers must catch each top person, and catchers and bases must be stationary prior to initiation); straight drops/small hop offs with no additional skills from waist level or below to the performing surface do not require assistance; no free flipping or assisted flipping dismounts allowed; may not intentionally travel; top persons may not come in contact with each other while released from bases; tension drop/rolls of any kind are not allowed					
<b>DISMOUNTS</b> (waist level cradles not allowed in Mini and Prep divisions)	Only straight pop downs, basic straight cradles.  NO dismounts from above prep level in pyramids	Straight pop downs; basic straight cradles; ¼ turn cradles	1 ¼ twist or 1 trick from 2 leg stunt (from prep level and above must land in cradle); straight pop downs, basic straight cradles and ¼ turn cradles from single leg stunt  NO dismount from an inverted position	2 ¼ twist from 2 leg stunt; 1 ¼ twist from single leg stunt; if exceeds 1 ¼ twist to cradle, no other skill allowed; dismounts from an inverted position may not twist	2 ¼ twists; dismounts from an inverted position may not twist	2 ¼ twists; dismounts from an inverted position may not twist
<b>GENERAL TOSSES</b>	Minimum of 3 tossing bases, and up to a total of 4 tossing base;; one base must be behind the top person; all bases must have feet on the performing surface; toss must land in cradle position by at least 3 original bases one of which is positioned at the head and shoulder area of the top person; top person must have both feet in/on hands of bases at initiation; NO flipping, inverted, or intentionally traveling tosses; NO stunt, pyramid, individual, or prop may move over or under a toss, and a toss may not be thrown over, under, or through stunts, individuals or props; top persons in separate tosses may not come in contact with each other; only a single top person is allowed during a toss					
<b>TOSSES</b> (Not allowed in Mini and Prep divisions including waist level cradles)	Not allowed including waist level cradles	Straight ride	1 trick or 1 ¼ twists  EXCEPTION: Ball X  Arch does not count as skill	2 tricks; 2 ¼ twists; if exceeds 1 ½ twists no other skill allowed	3 tricks; 2 ½ twists  Youth: If exceeds 1 ½ twists no other skill allowed	2 ½ twists; unlimited tricks
